

31st International Symposium on Lepton Photon Interactions at High Energies

Tuesday, 18 July 2023

Astrophysics: Room C (13:30 - 15:15)

time	[id] title	presenter
13:30	[64] Dark Matter production from two evaporating PBH Distributions	CHAUDHURI, Arnab
13:45	[169] Dark Matter Capture in Compact Objects	VIRGATO, Michael
14:00	[171] Advancing Globular Cluster Constraints on the Axion-Photon Coupling	HISKENS, Frederick
14:15	[203] Capture of Dark Matter in Neutron Stars and White Dwarfs	BUSONI, Giorgio
14:30	[194] Constraining Phase Transitions in Grand Unified Theories with Gravitational Waves	PEARCE, Matthew

Friday, 21 July 2023

Astrophysics (11:00 - 12:00)

-Conveners: Nicole Bell

time	[id] title	presenter
11:00	[12] Probing ultralight bosons with black holes and gravitational waves	SUN, Ling
11:30	[103] Particle physics with cosmic neutrinos	HILL, Gary
