

## **Session Program**

**3 December 2010**

**Design, construction and experimental  
program for CLIC damping wiggler**

***Cooling Concept for Nb-Ti prototype wiggler***

CERN, 30/7-018 - Kjell Johnsen Auditorium

## Friday 3 December

15:45

### Cooling Concept for Nb-Ti prototype wiggler

**Session** | **Location:** CERN, 30/7-018 - Kjell Johnsen Auditorium

**15:45-16:00**

#### Cryostat design for CLIC damping wiggler prototype in ANKA

**Speaker**

Konstantin Zolotarev

**16:00-16:30**

#### Conceptual cooling design, and cryogenic system requirements (electricity, water, and size)

**Speaker**

Antonio Perin

**16:30-17:00**

#### Location of cryoplant at ANKA, supply of electricity and water, and safety regulations in Germany

**Speaker**

Erhard Huttel

**17:00-17:30**

#### Discussion

17:30
