

23rd International Workshop on Radiation Imaging Detectors

Monday 27 June 2022

Front End - Room Garda (14:00 - 15:50)

-Conveners: Bernd Schmitt

time	[id] title	presenter
14:00	[219] INVITED: Design challenges of hybrid pixel detectors for spectral imaging	LLOPART CUDIE, Xavi
14:30	[134] Development of Timepix4 readout for experiments at synchrotrons and FELs	IGNATENKO, Alexandr
14:50	[160] First tracks and initial timing results with Timepix4 Detectors	VAN BEUZEKOM, Martin
15:10	[52] The new monolithic ASIC of the preshower detector for di-photon measurements in the FASER experiment at CERN	GONZALEZ SEVILLA, Sergio
15:30	[183] A flexible, customizable and open-source software for the Timepix4 ASIC configuration and read-out	CAVALLINI, Viola
