

SCET Workshop 2022

Wednesday, 20 April 2022

TMDs and PDFs: 1 - Room 220, Hauptgebäude (14:00 - 16:00)

time	[id] title	presenter
14:00	[17] Factorization connecting TMDs in SCET and lattice QCD	SCHINDLER, Stella
14:30	[9] Precision Phenomenology of Unpolarized Semi-Inclusive Deep Inelastic Scattering in Effective Field Theory	LIEFFERS, Justin
15:00	[6] TMD operator expansion at NLP	SCIMEMI, Ignazio
15:30	[3] TMD distributions at the next-to-leading power	VLADIMIROV, Alexey

TMDs and PDFs: 2 - Room 220, Hauptgebäude (16:30 - 18:10)

time	[id] title	presenter
16:30	[33] Factorization for Subleading Power TMD Observables	GAO, Anjie
17:00	[18] Quasi Transverse Momentum Dependent correlator @ next-to-leading power	RODINI, Simone
17:30	[8] Towards lattice calculations of double parton distributions	JAARSMA, Max

Thursday, 21 April 2022

TMDs and PDFs - Room 220, Hauptgebäude (16:30 - 18:00)

time	[id] title	presenter
16:30	[28] Rapidity evolution of TMDs with running coupling (remote)	BALITSKY, Ian
17:00	[31] Pseudo- and quasi-PDFs in the BFKL approximation (remote)	CHIRILLI, Giovanni Antonio
17:30	[11] TMDs in dijet and heavy hadron pair production at EIC (remote)	F. DEL CASTILLO, Rafael
