## Extraction of Pion TMDs from Drell-Yan data

*Wednesday, 31 August 2022 11:45 (20 minutes)*

In this talk we present our extraction of unpolarized quark-pion transverse-momentum-dependent parton distribution functions (TMD-PDFs) from a fit of all the existing Drell-Yan data. The fit is performed at the N<sup>3</sup>LL logarithmic accuracy in the resummation of  $q_T$ -logarithms.
