

Benchmarking Working Group activities

Tuesday 26 April 2022 17:35 (25 minutes)

The HEPiX working group has been very active in the past months to find a replacement for HS06. The WG is working in strict contact with the WLCG HEPscore deployment task force. This talk will focus on the technical aspect of the new benchmark and on the framework of the Benchmarking Suite in particular the analysis of the last results.

Desired slot length

20 minutes
