Beam Interface Client Interface

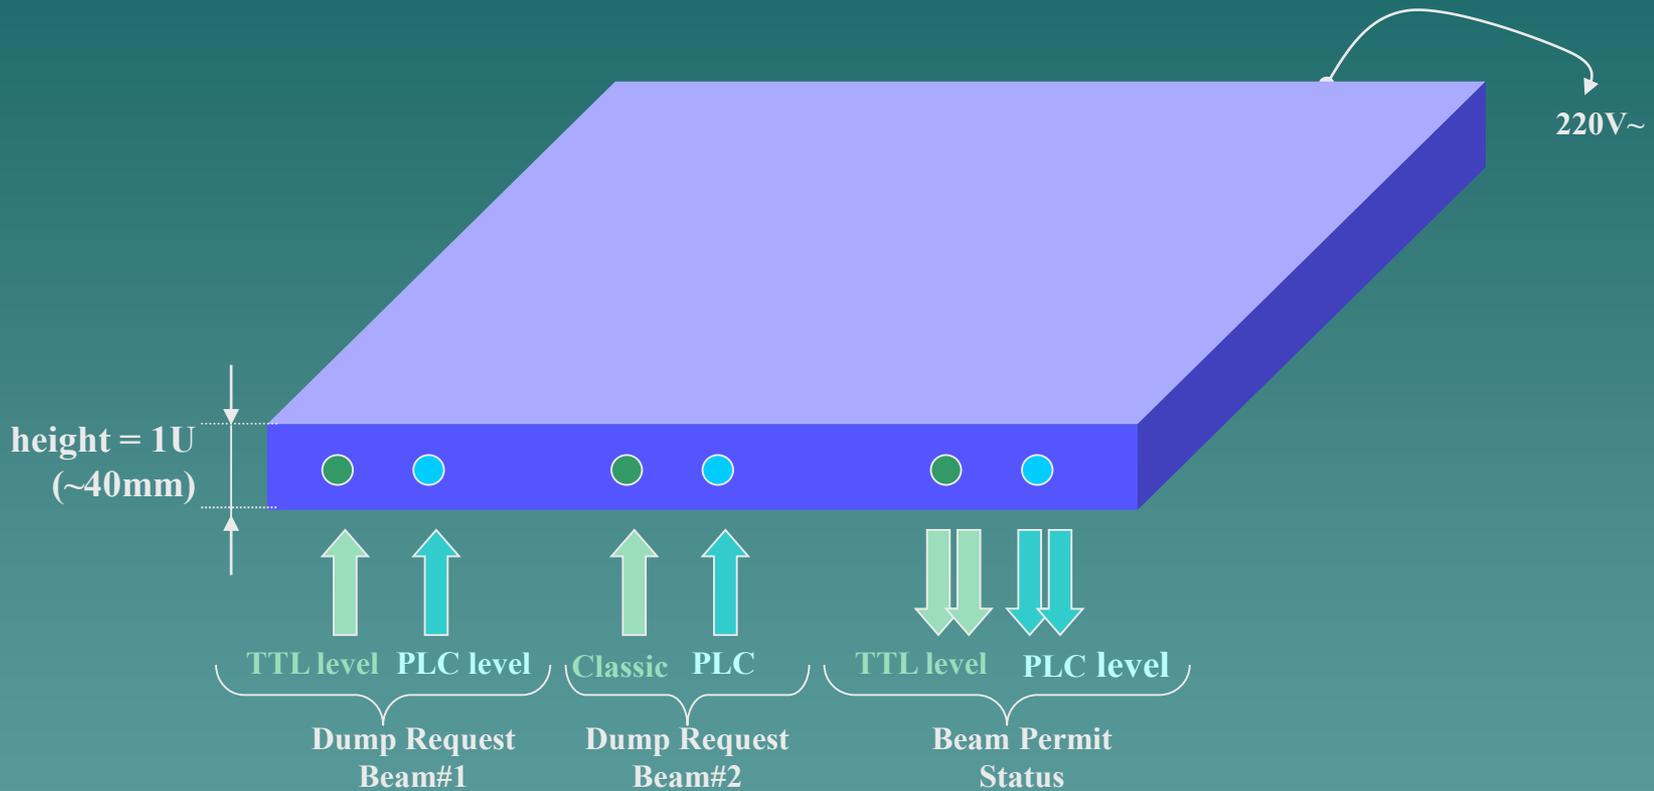

**Solution
for one Beam**

**Solution for
separated beams**

Proposal for the Interlock Client Interface:

Conclusion

- ◆ Comments from existing Interlock clients?
- ◆ Missing clients?
 - LHC Injection Kickers?
- ◆ New clients?
 - Q4 Measurement and MSD Voltage needed for LBDS?
- ◆ In accord with redundancy choices?
- ◆ Cables should be ordered very soon.
- ◆ In agreement with *Maskable / Not maskable* partition?
- ◆ “*Safe Beam Flag*” study has been launched
