

Session Program

May 24 - 27, 2022

**The Mitchell Conference on Collider, Dark
Matter, and Neutrino Physics 2022**

Neutrino, Dark Matter, String

Fri, May 27

10:50 AM

Neutrino, Dark Matter, String

Session | Location: | Convener: Brooks Thomas

10:50 - 11:13 **Memory-triggered supernova neutrino detection**

Speaker

Mainak Mukhopadhyay

11:13 - 11:36

New Strategies and Targets for Probing of Velocity-Dependent Dark Matter Annihilation

Speaker

Jason Kumar

11:36 - 11:59

UV/IR Mixing, EFTs, and Origami: Calculating the Higgs Mass in String Theory

Speaker

Keith R. Dienes

11:59 - 12:22 **MINER: Review**

Speaker

Nader mirabolfathi

12:45 PM
