Frequently asked questions and frequently encountered problems

Monday 9 May 2022 13:45 (35 minutes)

Describing frequently asked questions about Allpix Squared simulations, as well as frequently encountered problems and their solutions. The talk will outline important things to think about when setting up and running an Allpix Squared simulation, and describe possible pitfalls and their workarounds.

Presenter: WENNLÖF, Håkan (Deutsches Elektronen-Synchrotron (DE))

Session Classification: Welcome & Allpix Squared Overview
