

PHENIICS Fest 2022

Friday 20 May 2022

Talks: Session 5 - 200 (15:30 - 17:30)

time	[id] title	presenter
15:30	[18] Developpement d'un imageur mobile multimodal pour la caracterisation radiologique d'environnements complexes	BENMAHI, Kamel
15:50	[19] Uncertainty analysis of absorbed dose calculation in targeted radiotherapy using a Bayesian approach.	BENSIALI, Mohammed
16:10	[20] Combined effects of irradiation and gas injection on the microstructural evolution of aluminum nitride	BOUHALI, Gabriel
16:30	[21] Preclinical modeling of exposures under interventional radiology conditions at low-energy: lesion kinetics, dosimetry and effect of radiation protocols	GUILLOU, Manon
16:50	[22] Dispositif modulaire pour la cartographie automatisée et fiabilisée d'installations indoor	BARROS, Andrea
