

Admin Meeting #3/22 – March 3, 2022

Presents: Federica, Anna, Martin, Laszlo, Andrea

Excused: Kostas

Absent: Pierre

- All the present members agreed that we need to have one single link to Admin meeting, valid for all Admin meetings, shared between the committee; the actual solution is elegant but less practical, and if the host is missing (as in this case) we cannot share screen during discussion. The link to be used from now on will be:
<https://cern.zoom.us/j/63412468285?pwd=SDk3bEQ0akhudlR6Q2E1eWFJMnU3UT09>
- On Monday March 7 the activities of the club can restart with the same restrictions as before (Covid Level 2); all members will be informed by email (Action=> Andrea).
- The following on-site workshop and courses will be organized in the next weeks:
 - Beginner Course on Saturday March 19 (if enough subscription); Organizer: Martin, helped by Federica for advertisement, flyer etc.
 - Printing course; Organizer: Laszlo. Dates to be announced by him.
 - Studio workshop for beginner and “how to work with a model”; first date will be March 26 (if enough subscription). The committee agrees that the model will be paid 15/20CHF by each member participating to the workshop and money will transit on the Club Account for transparency reasons. Organizer: Andrea, helped by Federica for advertisement, flyer etc.
 - Drone course/workshop: Organizer: Kostas, dates to be defined, Andrea can help if needed.
- Article to be published on Echo (Staff Association): Federica will take contact with Lenca, Andrea to send email to both.
- Hybrid meeting can restart from next week; to check feasibility. If ok, members will need to subscribe. 5 people maximum + presenter.
- Access to the club will be regulated by e-groups and not anymore with single access request via Adams. Andrea and Anna will take care to keep the e-group updated (Admins of this e-group are the members of the committee). Card registration will continue to be organized by Andrea.
