

Session Program

30 April 2022

PIKIMO 12

Morning Session

Saturday 30 April

09:30

Morning Session

Session | Location:

09:30–09:45

Searching for Lorentz violation and spin-gravity couplings in experiments

Speaker

Zonghao Li

09:45–10:00

Chirally-Enhanced Muon $g-2$ and Its Implications to Higgs-Related Observables

Speaker

Keith Hermanek

10:00–10:15

Searching for Ultralight Dark Matter with Light

Speaker

Christina Gao

10:15–10:30

Cosmological Dark Photon Oscillations in Non-Minimal Dark Sectors

Speaker

Mr Xucheng Gan

10:30–10:45

Searching for Dark Matter with SRF Cavities

Speaker

Michael Wentzel

10:45
