

Session Program

10-11 Mar 2022

International Particle Physics Masterclasses

Talks

Online
Zoom

Thursday 10 March

13:45

Talks: Introduction to CERN, Research and career possibilities in the field of Particle Physics

Session | Location: Online, Zoom | Convener: Barbara Erazmus

13:45-14:15

Introduction to CERN, Research and career possibilities in the field of Particle Physics

Speaker

Barbara Erazmus

14:15

14:15

Talks: The Strangeness and Beauty of Antimatter

Session | Location: Online, Zoom | Convener: Cristina Lazzeroni

14:15-15:15

The Strangeness and Beauty of Antimatter

Speaker

Cristina Lazzeroni

15:15

15:15

Talks: Physics of quark-gluon plasma and the ALICE experiment

Session | Location: Online, Zoom | Convener: Tapan Nayak

15:15-16:15

Physics of quark-gluon plasma and the ALICE experiment

Speaker

Tapan Nayak

16:15

Friday 11 March

10:45

Talks: Strangeness Enhancement as Signature of QGP

Session | Location: Online, Zoom | Convener: Vikash Sumberia

11:20

10:45-11:20

Strangeness Enhancement as Signature of QGP

Speaker

Vikash Sumberia
