## Progress Towards a Fixed Field Beamline in Melbourne

*Thursday 15 December 2022 18:45 (15 minutes)*

A design study is ongoing for a fixed field beamline to transport proton beams from 0.5-3.5MeV. Magnet prototyping and particle simulations are underway to demonstrate technologies enabling rapid depth scanning for hadron therapy.

**Author:** Mr STEINBERG, Adam (University of Melbourne / University of Manchester / Cockcroft Institute)

**Co-authors:** NORMAN, Hannah (University of Melbourne / University of Manchester / Cockcroft Institute); Dr YAP, Jacinta (University of Melbourne); Prof. APPLEBY, Robert (University of Manchester); Dr SHEEHY, Suzie (University of Melbourne / ANSTO)

**Presenter:** Mr STEINBERG, Adam (University of Melbourne / University of Manchester / Cockcroft Institute)

**Session Classification:** Poster session

**Track Classification:** AIP Congress: AIP: Nuclear and Particle Physics
