## **Dark matter detection via atomic interactions**

*Tuesday, 13 December 2022 14:45 (15 minutes)*

Presentation of atomic excitation factors and calculated event rates for DM-electron scattering, and how they compare to the excess seen in the XENON1T experiment.

**Primary authors:** CADDELL, Ashlee (The University of Queensland); ROBERTS, Benjamin (The University of Queensland)

**Presenter:** CADDELL, Ashlee (The University of Queensland)

**Session Classification:** AIP: Atomic and Molecular Physics

**Track Classification:** AIP Congress: AIP: Atomic and Molecular Physics
