Quantum sensing from a distance through diamond-doped glass hybrid optical fibres

Thursday 15 December 2022 11:30 (30 minutes)

This talk reviews fabrication strategies to embed diamond particles in fibres with respect to diamond and fibre properties and enhancing magnetic field sensitivity.

Author: EBENDORFF-HEIDPRIEM, Heike

Presenter: EBENDORFF-HEIDPRIEM, Heike

Session Classification: Precision and Quantum Sensing Workshop

Track Classification: PQS2022: PQS: Precision and Quantum Sensing Workshop
