Sub-wavelength quantum imaging for astronomy

Thursday 15 December 2022 14:00 (30 minutes)

I will discuss recent advances in quantum imaging, and show how optimal measurement techniques that can allow us to surpass direct imaging precisions by several orders of magnitude.

Author: Dr HUANG, Zixin (Macquarie University)

Presenter: Dr HUANG, Zixin (Macquarie University)

Session Classification: Precision and Quantum Sensing Workshop

Track Classification: PQS2022: PQS: Precision and Quantum Sensing Workshop
