Conceptual understanding enabled by efficient automated design of quantum optical setups

Monday 12 December 2022 14:00 (30 minutes)

Artificial intelligence is a powerful tool for science, but an important question is how to extract true scientific understanding. We present a method that enables new understanding, and demonstrate its application to quantum photonics.

Author: Dr TISCHLER, Nora (Centre for Quantum Dynamics, Griffith University, Brisbane, Australia)

Co-authors: Prof. ASPURU-GUZIŁ, Alan (Departments of Chemistry and Computer Science, University of Toronto, Toronto, Ontario M5S 3H6, Canada); Dr KOTTMANN, Jakob (Departments of Chemistry and Computer Science, University of Toronto, Toronto, Ontario M5S 3H6, Canada); Dr KRENN, Mario (Max Planck Institute for the Science of Light, Erlangen 91058, Germany)

Presenter: Dr TISCHLER, Nora (Centre for Quantum Dynamics, Griffith University, Brisbane, Australia)

Session Classification: AIP: Quantum Science and Technology

Track Classification: AIP Congress: AIP: Quantum Science and Technology
