The mechanisms and limitations to ultrashort pulse emission from mid-infrared fibre lasers

Tuesday 13 December 2022 16:00 (30 minutes)

Creating short pulses at mid-infrared (MIR) wavelengths has been an ongoing research area for several years because of the high applications potential. This talk will discuss different schemes for creating MIR ultrashort pulses in all-fibre configuration.

Primary author: Prof. JACKSON, Stuart (MQ Photonics, School of Engineering, Macquarie University, North Ryde, NSW 2109, Australia)

Presenter: Prof. JACKSON, Stuart (MQ Photonics, School of Engineering, Macquarie University, North Ryde, NSW 2109, Australia)

Session Classification: Australian and New Zealand Conference on Optics and Photonics

Track Classification: ANZCOP: ANZCOP: Lasers
