## Rare leptonic B-decays at the Belle II Experiment

*Thursday 15 December 2022 14:45 (15 minutes)*

We will summarise current searches within Belle II to identify the rare, leptonic B- decays  $B^+ \rightarrow \mu^+\nu$  or  $B^0 \rightarrow \nu\bar{\nu}$  and detail how the upper bounds on experimental branching fractions of these rare decays will be improved.
