3D Dynamic Tuning of Metasurfaces

Wednesday 14 December 2022 11:30 (30 minutes)

We demonstrate fully three-dimensional (3D) active tuning of dielectric metasurfaces integrated with liquid crystals and dynamically controlled by magnetic field. Our approach entails good promise for highly tunable optical metadevices.

Author: IZDEBSKAYA, Yana (Australian National University)

Presenter: IZDEBSKAYA, Yana (Australian National University)

Session Classification: Australian and New Zealand Conference on Optics and Photonics

Track Classification: ANZCOP: ANZCOP: Nanophotonics, metaoptics and plasmonics
