The latest development in ALFRA, the UWA low-frequency rotational accelerometer

Monday 12 December 2022 12:15 (15 minutes)

In this talk, we will present our latest developments of the advanced low-frequency rotational accelerometer that has direct utilization in seismology applications and seismic isolation in gravitation wave detectors.

Author: BLAIR, Carl (University of Western Australia)

Co-authors: Prof. ZHAO, Chunhong (University of Western Australia); Prof. JU, Li (University of Western Australia); Dr WINTERFLOOD, John (University of Western Australia); Mr WILLIAMSON, Jack (University of Western Australia); AL-JODAH, Ammar (University of Western Australia)

Presenter: BLAIR, Carl (University of Western Australia)

Session Classification: AIP: Relativity and Gravitation

Track Classification: AIP Congress: AIP: Relativity and Gravitation
