Form and function: magnetic excitations in strongly correlated electron systems

Monday 12 December 2022 16:00 (30 minutes)

In this talk I will present work on the magnetic excitations of two contrasting strongly correlated electron systems.

Author: TOBIN, Siobhan (University of Oxford)

Co-authors: BOOTHROYD, Andrew (École Polytechnique Fédérale de Lausanne); PRABHAKARAN, Dharmalingam (University of Oxford); SOH, Jian-Rui (École Polytechnique Fédérale de Lausanne)

Presenter: TOBIN, Siobhan (University of Oxford)

Session Classification: Focus Session

Track Classification: Focused Sessions: Unveiling emergent physics of novel functional materials with neutron scattering
