Clean Time Crystals in Kicked Lieb-Liniger Model

Thursday 15 December 2022 17:00 (30 minutes)

We present a theoretical study of clean time crystalline phases in the model of periodically kicked one-dimensional bosons with contact interactions on a ring.

Author: Dr GIERGIEL, Krzysztof (Swinburne University of Technology)

Co-authors: DALTON, Bryan (Swinburne University of Technology); WANG, Jia (Swinburne University of Technology); SACHA, Krzysztof (Jagiellonian University); HANNAFORD, Peter (Swinburne University of Technology)

Presenter: Dr GIERGIEL, Krzysztof (Swinburne University of Technology)

Session Classification: Focus Session

Track Classification: Focused Sessions: Time Crystals
