

XV Black Holes Workshop

Monday 19 December 2022

Session 2: chaired by J. Natário - Auditório J. J. Laginha (11:00 - 12:45)

time	[id] title	presenter
11:00	[94] C. Herdeiro: The fate of the light-ring instability	
11:15	[95] P. Cunha: Fundamental photon orbits and spacetime instabilities	
11:30	[96] A. Frassino: Quantum black holes and holographic complexity	
11:45	[97] L. Annulli: Spin-induced scalarization and magnetic fields	
12:00	[98] G. Raposo: Elastic stars and compactness bounds	
12:15	[99] R. Panosso Macedo: Pseudospectrum and quasinormal mode (in)stability	
12:30	[100] P. Garcia: Recent results from the GRAVITY collaboration on SgrA* supermassive black hole
