

# XV Black Holes Workshop

## Tuesday 20 December 2022

**Session 8 B: chaired by J. Lemos - Auditório B2.03 (16:30 - 18:00)**

time	[id] title	presenter
16:30	[157] O. Zaslavskii: Radially moving frames and flows under the black hole horizon	
16:45	[156] D. Silva: Signatures of spherically symmetric distributions of dust	
17:00	[158] J. Delgado: Epicyclic frequencies for a generic ultracompact object	
17:15	[159] C. Caputo: Geodesic chaos-stationary case	
17:30	[160] J. Redondo Yuste: Binaries in a box	
17:45	[161] J. Novo: Circular orbits from 2D effective metrics
