

# An update on the student programmes

Margherita Boselli

Teacher and Student Forum - 22 March 2022

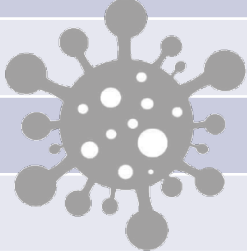

# High-School Students Internship Programme

HSSIP  
High-School Students  
Internship Programme

# Overview of HSSIP

2017	2018	2019	2020	2021	2022
 Bulgaria	 Czech republic	 Austria		 Greece	 Italy
 France	 Israel	 Finland		 Denmark	 Serbia
 Hungary	 Netherlands	 Germany		 Switzerland	
 Norway	 Poland	 Slovakia		 Belgium	
 Portugal	 Sweden	 Spain		 Romania	

- The end of 2021 was very intense, we organised 5 programs in three months: Thanks a lot to Ece Inci, Stavie Kotsi and Feza Tankut!
- The pilot phase of HSSIP will finish in 2022 with the last two programs: Serbia and Italy.

# HSSIP in 2022

- The Serbian program will take place between **April 25 and May 7**.
- We received 350 applications!
- The student selection is almost over.

- The Italian program will take place between **May 22 and June 4**.
- We received 498 applications!
- The students have been selected, and the teacher selection is in progress.

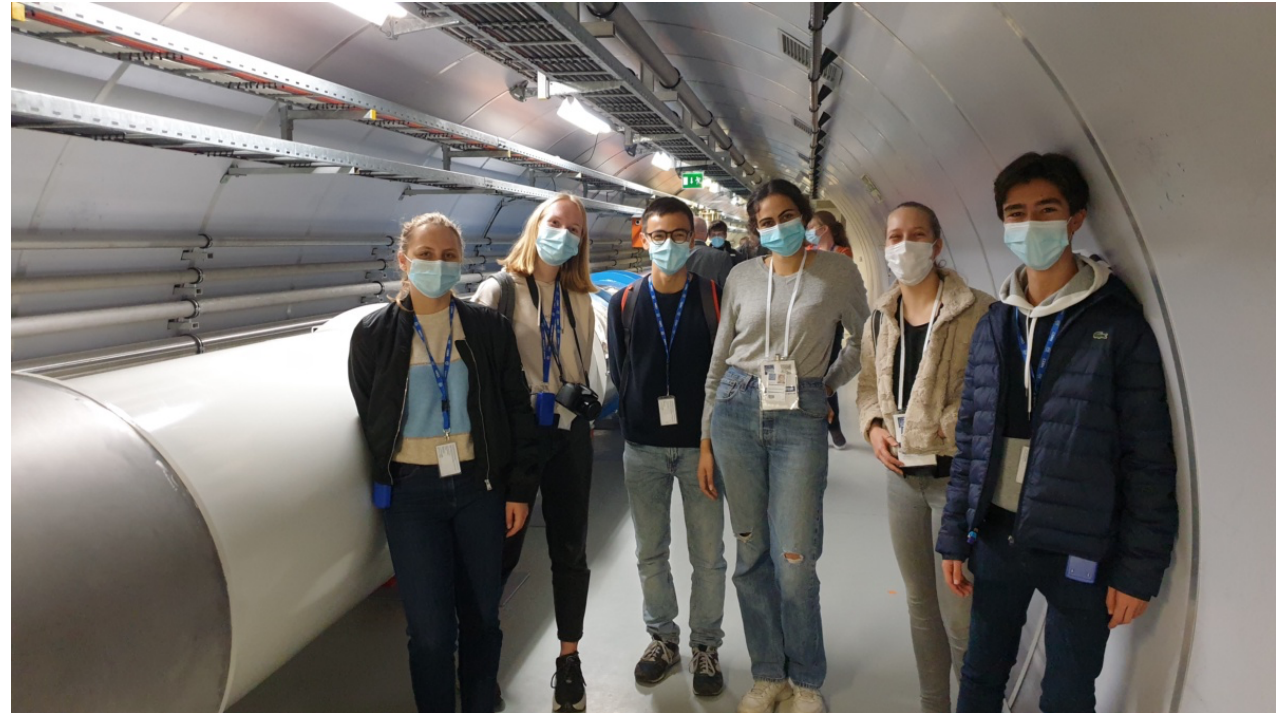

We are looking forward to welcoming the students and teachers on site!

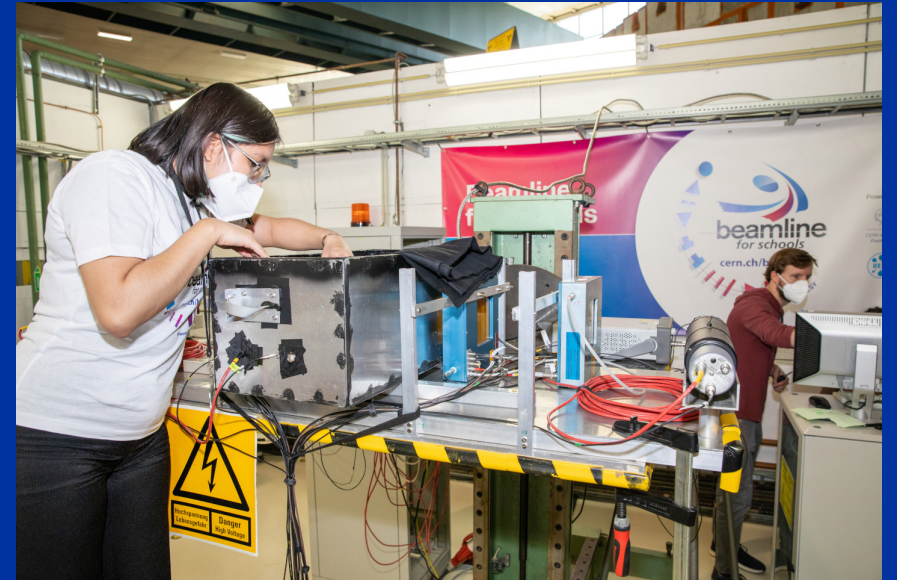

# Perspectives

We will summarise the feedback received by the participants and all the people involved in the organisation of the pilot between 2017 and 2022

We will evaluate how to follow up

# Beamline for Schools

## A Physics Competition for High-School Students

# Beamline for Schools 2022

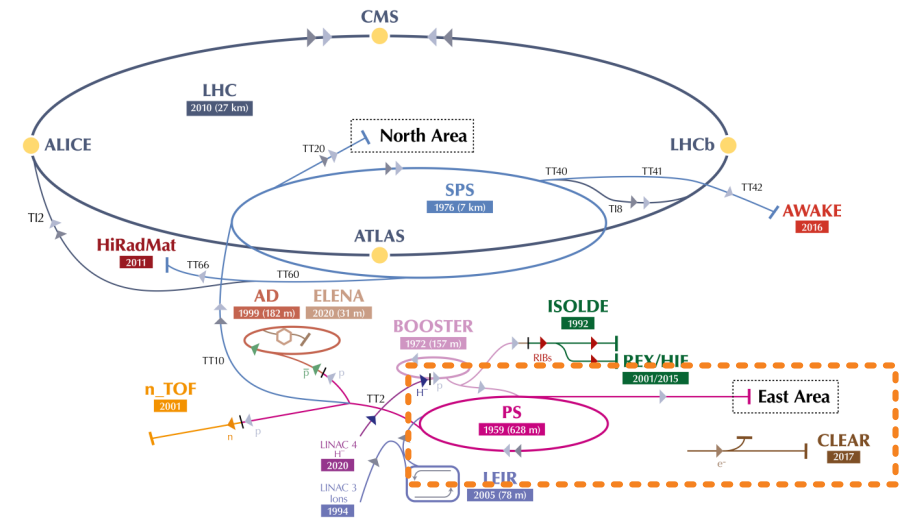

After the long shutdown the competition is back to the T9 beamline of the PS accelerator at CERN.

We will welcome two teams at CERN between **September 21 and October 4 2022**.

**But**

The collaboration with DESY will continue: possibility to host a third team in Hamburg.

The CERN accelerator complex  
*Complexe des accélérateurs du CERN*

# Beamline for Schools 2022

Two new support scientists will join our team on April 1:

- Martin Schwinzerl (fellow)
- Berare Gokturk (PhD student, Bogazici University, Istanbul)

Once again, thanks a lot to Cristovao Beirao da Cruz y Silva, and Paul Scheutze.

# Beamline for Schools 2022

**This year we have new prizes offered by the Belgian project “Stars Shine for Everyone”: optical telescopes.**

The participants can use ~100-200 extra words of their proposal to describe an outreach/education activity that they plan to do.

**Target audience:** a part of their community less exposed to science.

We encourage the teams to make good use of what they will learn through BL4S!

# Beamline for Schools 2022

387 teams pre-registered to the competition.

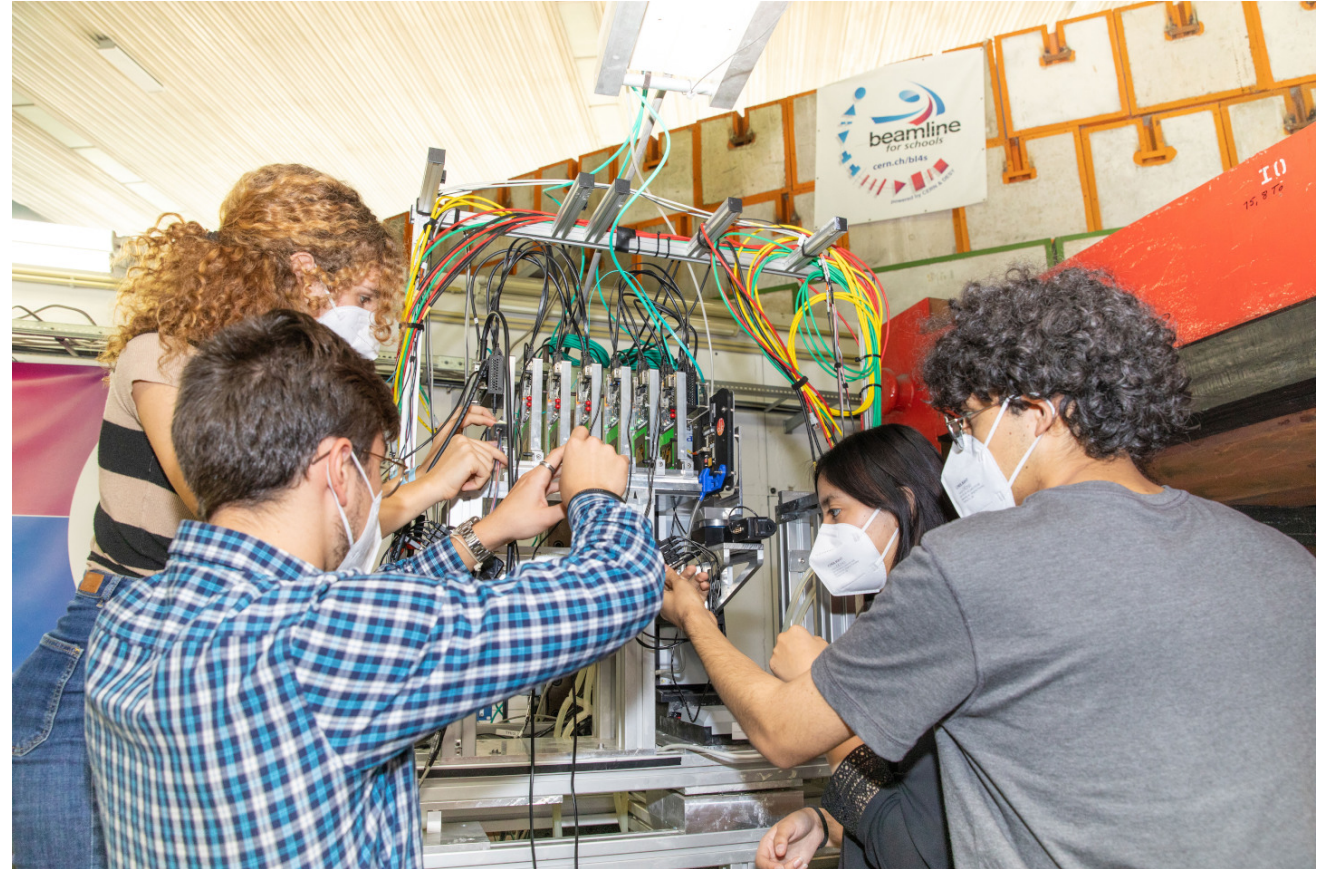

We already organised 4 online events for the perspective participants. The next one is tomorrow.

[Link to the registration](#)

Deadline to send a proposal: **15 April 2022 at Midnight CET!**

# Thank you!
