

## **Session Program**

**20-22 Sept 2022**

# **Town Hall KM3NeT Meeting**

***Diffuse***

Catania

# Thursday 22 September

09:00

## Diffuse

**Session** | **Location:** Catania | **Convener:** Antonio Marinelli

09:00–09:25

### The diffuse high-energy sky, the knee transition and parent observables

**Speaker**

Paolo Lipari

09:25–09:50

### The high-energy diffuse Galactic emission

**Speaker**

Daniele Gaggero

**Location**

Catania

09:50–10:15

### High-energy neutrinos from starburst galaxies

**Speaker**

Antonio Marinelli

**Location**

Catania

10:45–11:10

### Expected contribution of reservoir sources to the diffuse gamma-ray and neutrino sky

**Speaker**

Giovanni Morlino

**Location**

Catania

11:10–11:35

### Astrophysical probes of DM on the diffuse sky: present and future prospects (remote)

**Speaker**

Marco Chianese

**Location**

Catania

11:35–12:05

### Discussion

**Speaker**

Antonio Marinelli

**Location**

Catania

12:05
