Opening of the Workshop

Thursday 5 May 2022 15:45 (5 minutes)

Objectives of the workshop:

- to raise awareness about advantages of AM in the accelerator community, covering both research infrastructures and societal applications;
- to improve knowledge about the potential of AM applications to particle accelerators;
- to discuss the AM technological aspects, innovative materials as well as new design approaches for complex parts and assemblies.

Presenter: TORIMS, Toms (Riga Technical University (LV))

Session Classification: Workshop on Additive Manufacturing (AM) applications
