Measurements of the mass, width and coupling CP structure of the Higgs-boson with the ATLAS detector

Tuesday 6 September 2022 12:20 (20 minutes)

Measurements of the fundamental properties of the Higgs boson are presented, including its mass, width, and the CP properties of its coupling in various production modes and decay channels.

Internet talk

No

Is this abstract from experiment?

Yes

Name of experiment and experimental site

ATLAS

Is the speaker for that presentation defined?

Yes

Details

Mr Brian Le
