Recent Heavy Flavour results from ATLAS

Thursday 8 September 2022 12:35 (25 minutes)

Recent heavy flavour results from the ATLAS proton-proton collision dataset will be presented. Measurements of charmonium and B meson production will be reported. Results on B_c production and decays will also be discussed. New results on exotic resonances will be shown. The latest ATLAS measurements of the CP violation and rare decays will be reviewed.

Internet talk

Yes

Is this abstract from experiment?

Yes

Name of experiment and experimental site

ATLAS

Is the speaker for that presentation defined?

Yes

Details

Prof Umberto De Sanctis
