## Evolution of Regional, Age and Gender Demographics in the ATLAS Collaboration

*Thursday 8 September 2022 16:10 (20 minutes)*

The ATLAS Collaboration consists of more than 5000 members, from over 100 different countries. Regional, age and gender demographics of the collaboration are presented, including the time evolution over the lifetime of the experiment. In particular, the relative fraction of women is discussed, including their share of contributions, recognition and positions of responsibility, including showing how these depend on other demographic measures.

### Internet talk

No

### Details

Bill Murray (upd)

Speaker will be confirmed soon. (contact Dr Tracey Berry [tberry@cern.ch](mailto:tberry@cern.ch))

### Is the speaker for that presentation defined?

Yes

### Is this abstract from experiment?

Yes

### Name of experiment and experimental site

ATLAS collaboration

**Authors:** MURRAY, Bill (University of Warwick (GB)); BERRY, Tracey (University of London (GB))

**Presenter:** MURRAY, Bill (University of Warwick (GB))

**Session Classification:** Physics Education and Outreach

**Track Classification:** Special Sessions: Diversity and Inclusion
