

A-DT week (March 7–11)

- Regular traffic from production
- Dedicated tape staging
 - 200 TB from T1_Tape to T1_Disk throughout the week
 - Easy cleanup after

DT week (March 7–11)

- It looks like we'll get the P5 DAQ system for 1 ½ days: Monday 14.03. and half of Tuesday.
- Stream from P5 to T0, processed data goes to CTA. T1s will receive datasets mimicking real data taking conditions (sites get different datasets)
