

# QCD challenges from pp to AA collisions

## Wednesday 15 February 2023

### Event properties and hydro in small and large systems (09:00 - 10:30)

-Conveners: David Dobrigkeit Chinellato; Lucia Oliva; Aleksas Mazeliauskas

time	[id] title	presenter
09:00	[7] Correlations and collectivity at LHCb	SUN, Jiayin
09:22	[8] Interplay between equilibrated and non-equilibrated components with dynamical initialization framework	KANAKUBO, Yuuka
09:44	[9] Insights into the evolution of hadronic collisions with flow observables	Dr VISLAVICIUS, Vytautas
10:06	[10] EPOS4: a full general purpose event generator to do multi-observable analysis	WERNER, Klaus
