Mechanical Design

Subject	Workbench	Replies
Importer lignes dans un plan	Drafting	0
Exporter et utiliser le resultat d'une section	Assembly Design	0
Objet non connex	Part Design	0
Symétrie d'un assemblage	Assembly Design	0
Générer une section à partir d'une vue brisée	Drafting	0
Ajouter un attribut type masse dans la mise en plan:	Drafting	0
Ranger les composants et les contraintes d'un assemblage.	Assembly Design	1
Ajouter des cotes 3D dans la 2D	Drafting	0
Manque taraudage/filetage dans plan	Drafting	1
1 seul trait d'axe par Sketch	Sketcher	0
Creer tunnel suivant courbe qui monte et tourne en gardant le sol horizontal	Part Design	0
Remplacer une maquette par une autre dans un plan,sans refaire tout le plan	Part Design	0
How updating hatchings which do not match to the standard material selected	Drafting	0
The "callout" is red in a detail you have created	Drafting	0
Creating a new part from an existing one present in the standard catalog	Part Design	0
How finding easely an inertia center?	Part Design	0
How to generate new CATPart from a CATPart already included in an CATProduct open in your catia session	Part Design	0
creer une Part depuis une part standard (save as)en coupant le lien avec la table de parametrage	Part Design	0
lignes qui n'apparaissent pas sur un plan.	Drafting	0
