Page 2: Review of HEPTech Mission Statement

Q1 **Yes**

Do you think the Mission Statement above reflects your understanding of HEPTech?

Q2 **Respondent skipped this question**

If no, what do you think is missing?

Q3 **Yes**

Do you think that our name "High Energy Physics Network" (HEPTech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4 **Respondent skipped this question**

If no, what would you suggest we expand the name to include?

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	7
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	10
Obtaining individual or group discounts to ASTP Technology Transfer training network	5
Annual News Letter	9
HEPTrepreneurs events	8

Q6

Respondent skipped this question

Are there any other activities or opportunities that HEPTech could provide in addition to the above?

Q1 **Yes**

Do you think the Mission Statement above reflects your understanding of HEPTech?

Q2 **Respondent skipped this question**

If no, what do you think is missing?

Q3 **No**

Do you think that our name "High Energy Physics Network" (HEPTech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4
If no, what would you suggest we expand the name to include?

Physics Science Network

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Technology and Knowledge Transfer best practise exchange sessions	1
Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	2
Close Networking with other Physics laboratories community	8
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	4
Business Development and Industry Contact Officer best practise and idea exchange.	3
Partnering with like-minded communities (e.g., EEN, ASTP, ENRIITC, TTO Circle, CERN KT Forum).	10
Obtaining individual or group discounts to ASTP Technology Transfer training network	9
EU Project participation (European Commission's scoping study for supporting the development of a code of practice for researchers on).	7
Annual News Letter	5
HEPTrepreneurs events	6

Q6

Respondent skipped this question

Page 2: Review of HEPTech Mission Statement

Q1 **Yes**

Do you think the Mission Statement above reflects your understanding of HEPTech?

Q2

If no, what do you think is missing?

Dissemination & diffusion of technical activities related to HEP (probably it is implicit in the previous review)

Q3 **Yes**

Do you think that our name "High Energy Physics Network" (HEPTech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4

If no, what would you suggest we expand the name to include?

Opening to other activities than HEP can be too broad and difficult to manage

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Technology and Knowledge Transfer best practise exchange sessions	9
Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	1
Close Networking with other Physics laboratories community	7
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	3
Business Development and Industry Contact Officer best practise and idea exchange.	2
Partnering with like-minded communities (e.g., EEN, ASTP, ENRIITC, TTO Circle, CERN KT Forum).	8

Page 2: Review of HEPTEch Mission Statement

Q1**No**

Do you think the Mission Statement above reflects your understanding of HEPTEch?

Q2

If no, what do you think is missing?

I selected "no" just to fill in this comment. The Mission Statement is correct and good, but its implementation is difficult. The major KT offices of the big countries contributing to the CERN is out of HEPTEch since years, and there should be some reason behind their choice. Nobody tried to understand why France and Spain and Germany, apart GSI which is not a CERN partner financing experiments, left HEPTEch. It is difficult to find some common interests among partners with different KT structures and dimensions. I don't have a solution, but one thing that i feel is missed is the knowledge of how the different KTs work, their different structures. Also interactions among various members of the community are very rare. Another issue is that the role of CERN not always is clear, the consortium tends to be CERN-centric.

Q3**Yes**

Do you think that our name "High Energy Physics Network" (HEPTech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4

If no, what would you suggest we expand the name to include?

Opening to larger collaborations should be good, but typically they have different interests, sometime not overlapping at all, sometime opposite. If they are in competition, for example for getting larger budget from Europe, any collaboration will be difficult. We should stand on what is the mission of CERN.

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Technology and Knowledge Transfer best practise exchange sessions	6
Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	5
Close Networking with other Physics laboratories community	4
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	9
Business Development and Industry Contact Officer best practise and idea exchange.	3
Partnering with like-minded communities (e.g., EEN, ASTP, ENRIITC, TTO Circle, CERN KT Forum).	2
Obtaining individual or group discounts to ASTP Technology Transfer training network	1
EU Project participation (European Commission's scoping study for supporting the development of a code of practice for researchers on).	10

Page 2: Review of HEPTech Mission Statement

Q1 **Yes**

Do you think the Mission Statement above reflects your understanding of HEPTech?

Q2

If no, what do you think is missing?

common addressing target groups, general awareness raising about HEP for user/partner communities, shared development projects (HEurope, etc)

Q3 **Yes**

Do you think that our name "High Energy Physics Network" (HEPTech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4 **Respondent skipped this question**

If no, what would you suggest we expand the name to include?

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Technology and Knowledge Transfer best practise exchange sessions	3
Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	6
Close Networking with other Physics laboratories community	10
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	7

Page 2: Review of HEPTech Mission Statement

Q1 **No**

Do you think the Mission Statement above reflects your understanding of HEPTech?

Q2

If no, what do you think is missing?

Focus on support large scales facilities with technology transfer and business development.

Q3 **No**

Do you think that our name "High Energy Physics Network" (HEPTech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4

If no, what would you suggest we expand the name to include?

Should include reference to large scale physics facilities.

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Technology and Knowledge Transfer best practise exchange sessions	1
Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	7
Close Networking with other Physics laboratories community	3
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	9

Page 2: Review of HEPTech Mission Statement

Q1 **Yes**

Do you think the Mission Statement above reflects your understanding of HEPTech?

Q2

If no, what do you think is missing?

I would add the aim of having joint projects, Horizon Europe proposals. HepTECH could help build eligible consortiums.

Q3 **No**

Do you think that our name "High Energy Physics Network" (HEPTech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4

If no, what would you suggest we expand the name to include?

Involving photonics is a definitely good idea.

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Technology and Knowledge Transfer best practise exchange sessions	1
Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	3
Close Networking with other Physics laboratories community	4
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	6
Business Development and Industry Contact Officer best practise and idea exchange.	2

Page 2: Review of HEP Tech Mission Statement

Q1 **No**

Do you think the Mission Statement above reflects your understanding of HEP Tech?

Q2

If no, what do you think is missing?

I think that HEP Tech is so much more than the mission indicates. There could be some more "concreteness" i the mission.

Q3 **No**

Do you think that our name "High Energy Physics Network" (HEP Tech) describes us or should we change our name to be more encompassing, to include other Physics-related Large Scale Facility research infrastructures e.g. Low energy Physics labs, Photonics etc?

Q4

If no, what would you suggest we expand the name to include?

Services, network, value proposition, impact, a better definition of the common denominator.

Q5

Please rank the following HEPTech offerings in order of importance to you and your organisation. Where 1 is the most important and 9 the least important.

Technology and Knowledge Transfer best practise exchange sessions	1
Funding support (Euros 6 to 8K) for Academia Industry Matching Events (AIME)'s	6
Close Networking with other Physics laboratories community	7
Consortium forming for HORIZON Europe – Letter informing of EU Horizon Calls	8
Business Development and Industry Contact Officer best practise and idea exchange.	2
Partnering with like-minded communities (e.g., EEN, ASTP, ENRIITC, TTO Circle, CERN KT Forum).	4
Obtaining individual or group discounts to ASTP Technology Transfer training network	9
EU Project participation (European Commission's scoping study for supporting the development of a code of practice for researchers on).	10
Annual News Letter	5
HEPTrepreneurs events	3

Q6

Are there any other activities or opportunities that HEPTech could provide in addition to the above?

General branding of HEP a.o.
