

I/O - Interpreters

- Release:
 - As far as plan for the release, there are still the same:
 - nothing in I/O (except maybe the polymorphic array)
 - As much of the Cint/Reflex merge as possible.
- Travel:
 - I do not plan attend ACAT07.
 - I plan on attending CHEP07.
 - Possible talk for ROOT Workshop and CHEP07, in collaboration with Axel, Stefan and Paul
 - I/O evolutions, including our ideas for 'Data Model' evolution.
 - CINT revolution 😊
