

## **Session Program**

**29 November 2010 to 3 December 2010**

# **Zimányi 2010 Winter School on Heavy Ion Physics**

## ***Femtoscscopy and Hydro at RHIC***

MTA KFKI RMKI, Building III, 2nd floor, Tanácsterem  
H-1121 Budapest XII, Konkoly-Thege M. u 29-33 Hungary

# Tuesday 30 November

09:00

## Femtoscopy and Hydro at RHIC

**Session** |

**Location:** MTA KFKI RMKI, Building III, Building 3, Tanácssterem, MTA KFKI RMKI, H-1121 Budapest XII, Konkoly-Thege M. u 29-33 Hungary |

**Convener:** Prof. Boris Tomasik

09:00–09:40

### Three-dimensional pion and kaon source imaging from 200 GeV Au+Au collisions from the STAR experiment

**Speaker**

Dr Paul Chung

09:40–10:10

### Observables from an exact solution of 1+3 dimensional relativistic hydrodynamics

**Speaker**

Mr Márton Vargyas

10:10–10:40

### Initial temperature and EoS from photon spectra in Au+Au collisions

**Speaker**

Mr Imre Májer

10:40
