

## **Session Program**

**29 November 2010 to 3 December 2010**

# **Zimányi 2010 Winter School on Heavy Ion Physics**

## ***QCD - analytic results***

MTA KFKI RMKI, Building III, 2nd floor, Tanácsterem  
H-1121 Budapest XII, Konkoly-Thege M. u 29-33 Hungary

# Thursday 2 December

08:55

## QCD - analytic results

**Session** | **Location:** ELTE University, 7.22 (Kari Tanácsterem), Budapest XI, Pázmány P. sétány 1/A | **Convener:** Prof. S.D. Katz

08:55–09:00

### Greetings from the ELTE University

**Speaker**

Prof. Zsolt Frei

09:00–09:45

### Chiral Transition and Axial Anomaly at Finite Temperature and/or Density

**Speaker**

Prof. Teiji Kunihiro

09:45–10:15

### Detailing the indirect observation of the in-medium $\eta'$ mass drop at RHIC

**Speaker**

Mr Róbert Vértesi

10:15–10:50

### Overview of QCD Results from CMS

**Speaker**

Dr Ferenc SIKLÉR

10:50
