

## **Session Program**

**29 November 2010 to 3 December 2010**

# **Zimányi 2010 Winter School on Heavy Ion Physics**

## ***J-PARC and instrumentation***

MTA KFKI RMKI, Building III, 2nd floor, Tanácsterem  
H-1121 Budapest XII, Konkoly-Thege M. u 29-33 Hungary

# Friday 3 December

09:00

## J-PARC and instrumentation

Session |

**Location:** MTA KFKI RMKI, Building III, MTA KFKI RMKI, Budapest XII, Konkoly-Thege 29-33, Building 3, floor 2, Council Room (Tanácssterem), H-1121 Budapest XII, Konkoly-Thege M. u 29-33 Hungary

09:00–09:40

### Current Status and Prospects of Hadron Physics at J-PARC

**Speaker**

Prof. Naohito SAITO

09:40–10:10

### State-of-the-art gaseous detectors

**Speaker**

Dezso Varga

10:10–10:25

### MWPC option for HPTD: the Close Cathode Chamber

**Speaker**

Mr Gábor Kiss

10:25–10:40

### Higt pT upgrade of ALICE: the VHMPID, and its present state

**Speaker**

Dr Gergő Hamar

10:40–11:00

### Muon tomography experiments in the Janossy pit

**Speaker**

Mr László Oláh

11:00
