

First announcement of the 2nd CERN Baltic Conference (CBC 2022)

10 – 12 October, 2022, Vilnius, Lithuania

The 2nd CERN Baltic Conference (CBC 2022) to be held in National Centre of Physical and Technological Sciences in Vilnius, Lithuania. It is an annual conference organized by the CERN Baltic Group (CBG), where location is rotated within CBG member countries and hosting institutions.

■ Goal and objectives

In the spirit of CBG (transparency, honesty, sharing and collaboration) the following objectives are set for the Conference:

- To connect CERN community of Baltic States
- To induce collaboration: who is doing what? What are interests, topics, competences, aspirations?
- To provide multidisciplinary networking platform where individual researchers, scientific groups and companies from Baltic States can find synergies and opportunities for collaboration
- To inform and to engage stakeholders and industry across Baltic States

The conference aims the coordination of the Baltic research institutions activities towards CERN and related collaborations/experiments for strengthening and development Baltic CERN directional research community.

■ Scope and topics

This is scientific and technical conference to cover all spectrum of CERN related activities (e.g. research, engineering, computing, industrial and policy).

Topics are related, however, not limited to: Accelerator and Detector Technologies, High Energy Physics as well as Data gathering and data analysis. From physics to engineering, from fundamental science to industry. Topics will be logically linked to the CBG activities within the CERN collaborations, experiments and studies: such as CMS, CLIC, FCC, MEDICIS, AEGIS and CLOUD.

■ Target audience and participants

CERN related researchers, engineers, students (of all levels) and industrial representatives (incl. CERN Industrial Liaison Officers of EE, LT and LV) as well as stakeholders of Baltic States.

Expert speakers from CERN and CBG Member institutions will be invited to participate and to contribute to the each of the topics.
