

Report from

Global Cosmics Steering Group

Carolin Schwerdt, Sabine Hemmer

New Group Member

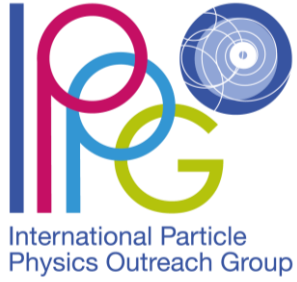

- CCOC from China has newly joined and presented its activities

Report from the reports

- different projects have presented innovations in their activities
 - noted a few commonalities among the projects
- due to the pandemic, many projects have developed and successfully implemented online offers
 - there are many new online resources/activities
 - in the future in presence offers are planned again, but online will also stay
 - we could build on this to bring young people worldwide in contact with each other, who are working on the same topics (highlighted: Balloon flight)
- Date for the next ICD is being planned
 - notes on unsuitable dates can be sent to carolin
- we could not discuss future of the global cosmics group
 - how the work of the group should be organized in the future?, what direction we should go?
 - we will ask for opinions by e-mail

Website

- new IPPOG/Global Cosmics website: <https://test-ippog-d8-clean.web.cern.ch/global-cosmic-rays-portal>
 - as soon as this new page is published, the old page will be switched off under <https://icd.desy.de/e49245/> (redirect will be created)
 - everyone is responsible for the content on the new page itself!
 - Change requests to: barbora.gulejova@cern.ch

Thank You
