

# Quark Matter 2023

## Saturday, 9 September 2023

### Flash Talks - Ballroom of the Americas (10:45 - 11:45)

-Conveners: Claudia Ratti

time	[id] title	presenter
10:45	[1078] Introduction	RATTI, Claudia
10:46	[682] Proton-cluster femtoscopy at the HADES experiment	STEFANIAK, Maria
10:52	[164] Deep learning for flow observables in ultrarelativistic heavy-ion collisions	HIRVONEN, Henry
10:58	[221] Measurement of Two-Particle Correlations and Flow Coefficients in High Multiplicity $e^+e^-$ Collisions using Archived ALEPH Data at 91-209 GeV	CHEEN, Yu-Chen (Janice)
11:04	[518] Measurements of Hypertriton Production in Au+Au Collisions at 3 to 7.7 GeV	JI, Yuanjing
11:10	[607] Dijet imbalance for jets of various radii in Pb+Pb and $pp$ collisions with the ATLAS detector	ROMERO, Anabel
11:16	[305] Dynamics of causal hydrodynamic fluctuations in an expanding system	FUJII, Shin-ei
11:22	[398] Strangeness enhancement at LHCb	SHANGASE, Desmond Mzamo
11:28	[463] Current status and future prospects of measuring hadronic interactions in $pp$ collisions at 13.6 TeV with ALICE	RIEDEL, Anton Albert
11:34	[783] PHENIX Measurements of Azimuthal Anisotropy of Light and Heavy Flavor Hadrons in Au+Au Collisions at Forward Rapidity	BLANKENSHIP, Brandon
11:40	[503] The Intermediate Silicon Tracker of sPHENIX	SHIH, Cheng-Wei
