

3rd Quattor Workshop

Contribution ID: 13

Type: **not specified**

Documentation

Tuesday, 13 March 2007 09:40 (30 minutes)

There has been some progress on documentation since the last workshop. In particular, there is now an infrastructure in place for automatically generating component documentation from CVS. We will discuss this, the release page on the wiki and other forms of documentation and try to identify areas for improvement.

Session Classification: Progress review
