# *gLite Configuration*

## Shkelzen Rugovac
## Stijn De Weirdt

ULB – VUB – IIHE

3rd Quattor Workshop Bublin

March 2007

# *Status*

Voms (working)

glite-WMSLB (working + VO)

glite-CE (work in progress - 70%)

# *WMSLB*

Reuse the yaim script

Need to adapt ncm-glite

nostart/noconfigure/noconfigfile lists

Change order of configure/start sequence

Touch and dirperm to some files/dir

All this has been committed already

# gLite-WMSLB (cont'd)

Not yet committed (but ready and tested)

glite/wmslb/config.tpl

glite/wmslb/services.tpl

machine/wmslb.tpl

Some more work to do

Volist -> make a function that reuses VO config

# gLite-CE

Same approch as for wmslb

  Look at yaim scripts structure

Still an error at ncm-ncd --configure glite

Hope this will be finish by next week
