

## Precision calculations for future e+e-colliders: targets and tools

Contribution ID: 10

Type: **not specified**

# Precision electroweak physics above the Z pole

*Friday 10 June 2022 13:00 (40 minutes)*

The talk will review the physics potential of future lepton (e+e-) colliders for EW precision physics above the Z pole, highlighting in particular the experimental targets and those measurements that rely heavily on theory inputs, such as precision calculations.
