14:00–14:25 **Helmut in Bielefeld**

**Speaker**

Reinhard Kögerler

14:25–14:50 **Helmut's critical behavior; on the lattice and in the continuum**

**Speaker**

Frithjof Karsch

14:50–15:15 **Helmut's adventures in Portugal**

**Speaker**

João Seixas

15:15–15:40 **Equation of state and shear viscosity in percolation**

**Speaker**

Prof. Carlos Pajares

15:40–16:05 **Coffee Break**

16:05–16:40 **Percolation or the game of structure and chance**

**Speaker**

Philippe Blanchard

16:40–17:05 **The physics of camel riding and other tales**

**Speaker**

Prof. Dima Kharzeev

17:05–17:30 **From black holes to thermal radiation**

**Speaker**

Prof. Paolo Castorina

17:30–17:55 **A random walk through the hadron resonance gas**

**Speaker**

Krzysztof Redlich

17:55–18:20 **The constant gardener hunts the snark in the island of the day before**

**Speaker**

Carlos Lourenço

20:00–22:00 **Dinner in Piaristenkeller**
