

## **Session Program**

**17-21 Apr 2011**

# **Quarkonium production: Probing QCD at the LHC**

## ***Monday afternoon***

Vienna University of Technology, Prechtl-Saal  
1040 Wien, Karlsplatz 13, Main Building, Staircase I, Ground Floor

# Monday 18 April

14:10

## Monday afternoon

**Session** |**Location:** Vienna University of Technology, PrechtI-Saal, 1040 Wien, Karlsplatz 13, Main Building, Staircase I, Ground Floor |**Convener:** Enrico Scomparin

14:10–14:45

**Introduction to quarkonium production in pp collisions****Speaker**

Fabio Maltoni

14:45–15:10

**J/psi production studies in LHCb****Speaker**

Patrick Robbe

15:10–15:35

**J/psi production in pp collisions with ALICE****Speaker**

Ionut Cristian Arsene

15:35–16:00

**Coffee**

16:00–16:25

**Prompt and non-prompt J/psi differential cross sections with CMS****Speaker**

Luca Martini

16:25–16:50

**Charmonium production measurements in ATLAS****Speaker**

Darren Price

16:50–17:15

**chi\_c1 and chi\_c2 production with LHCb****Speaker**

Luigi Li Gioi

17:15–17:40

**J/psi production in Pb-Pb collisions with ATLAS****Speaker**

Vato Kartvelishvili

18:20
