# Remarks

---

- Fee will be comparable to previous VERTEX editions. We plan to support young invited colleagues to facilitate their attendance.
- Beyond Genova itself, in the neighboring, there are famous touristic sites such as Cinque Terre, Porto Venere, Sestri Levante, and social visits maybe organized during the conference.
- If accepted as the location for the VERTEX 2023, detailed proposals will be prepared and discussed with the Scientific Committee in the next months so that the place/time can be defined and the organization can start.

The Genova tracking groups would be honored to host  
VERTEX 2023!
