

# Introduction à

# INVENIO

# Histoire

- 1954** CERN (European Center for Nuclear Research)  
Initialement 12 états membres. (20 + 41  
"observateurs" aujourd'hui; ~10'000 personnes;  
> 500 universités)
- 1989** Tim Berners-Lee invente le Web au CERN.
- 1991** SPIRES (SLAC) première base de donnée  
disponible sur le Web.
- 1991** arXiv archive pour "preprints" de physique
- 1993** CERN Preprint Server sur le Web: archive  
institutionnelle
- 1996** CERN Library Server (weblib): ajout des livres,  
périodiques et "autres"

# Histoire

1954 CERN (European Center for Nuclear Research)

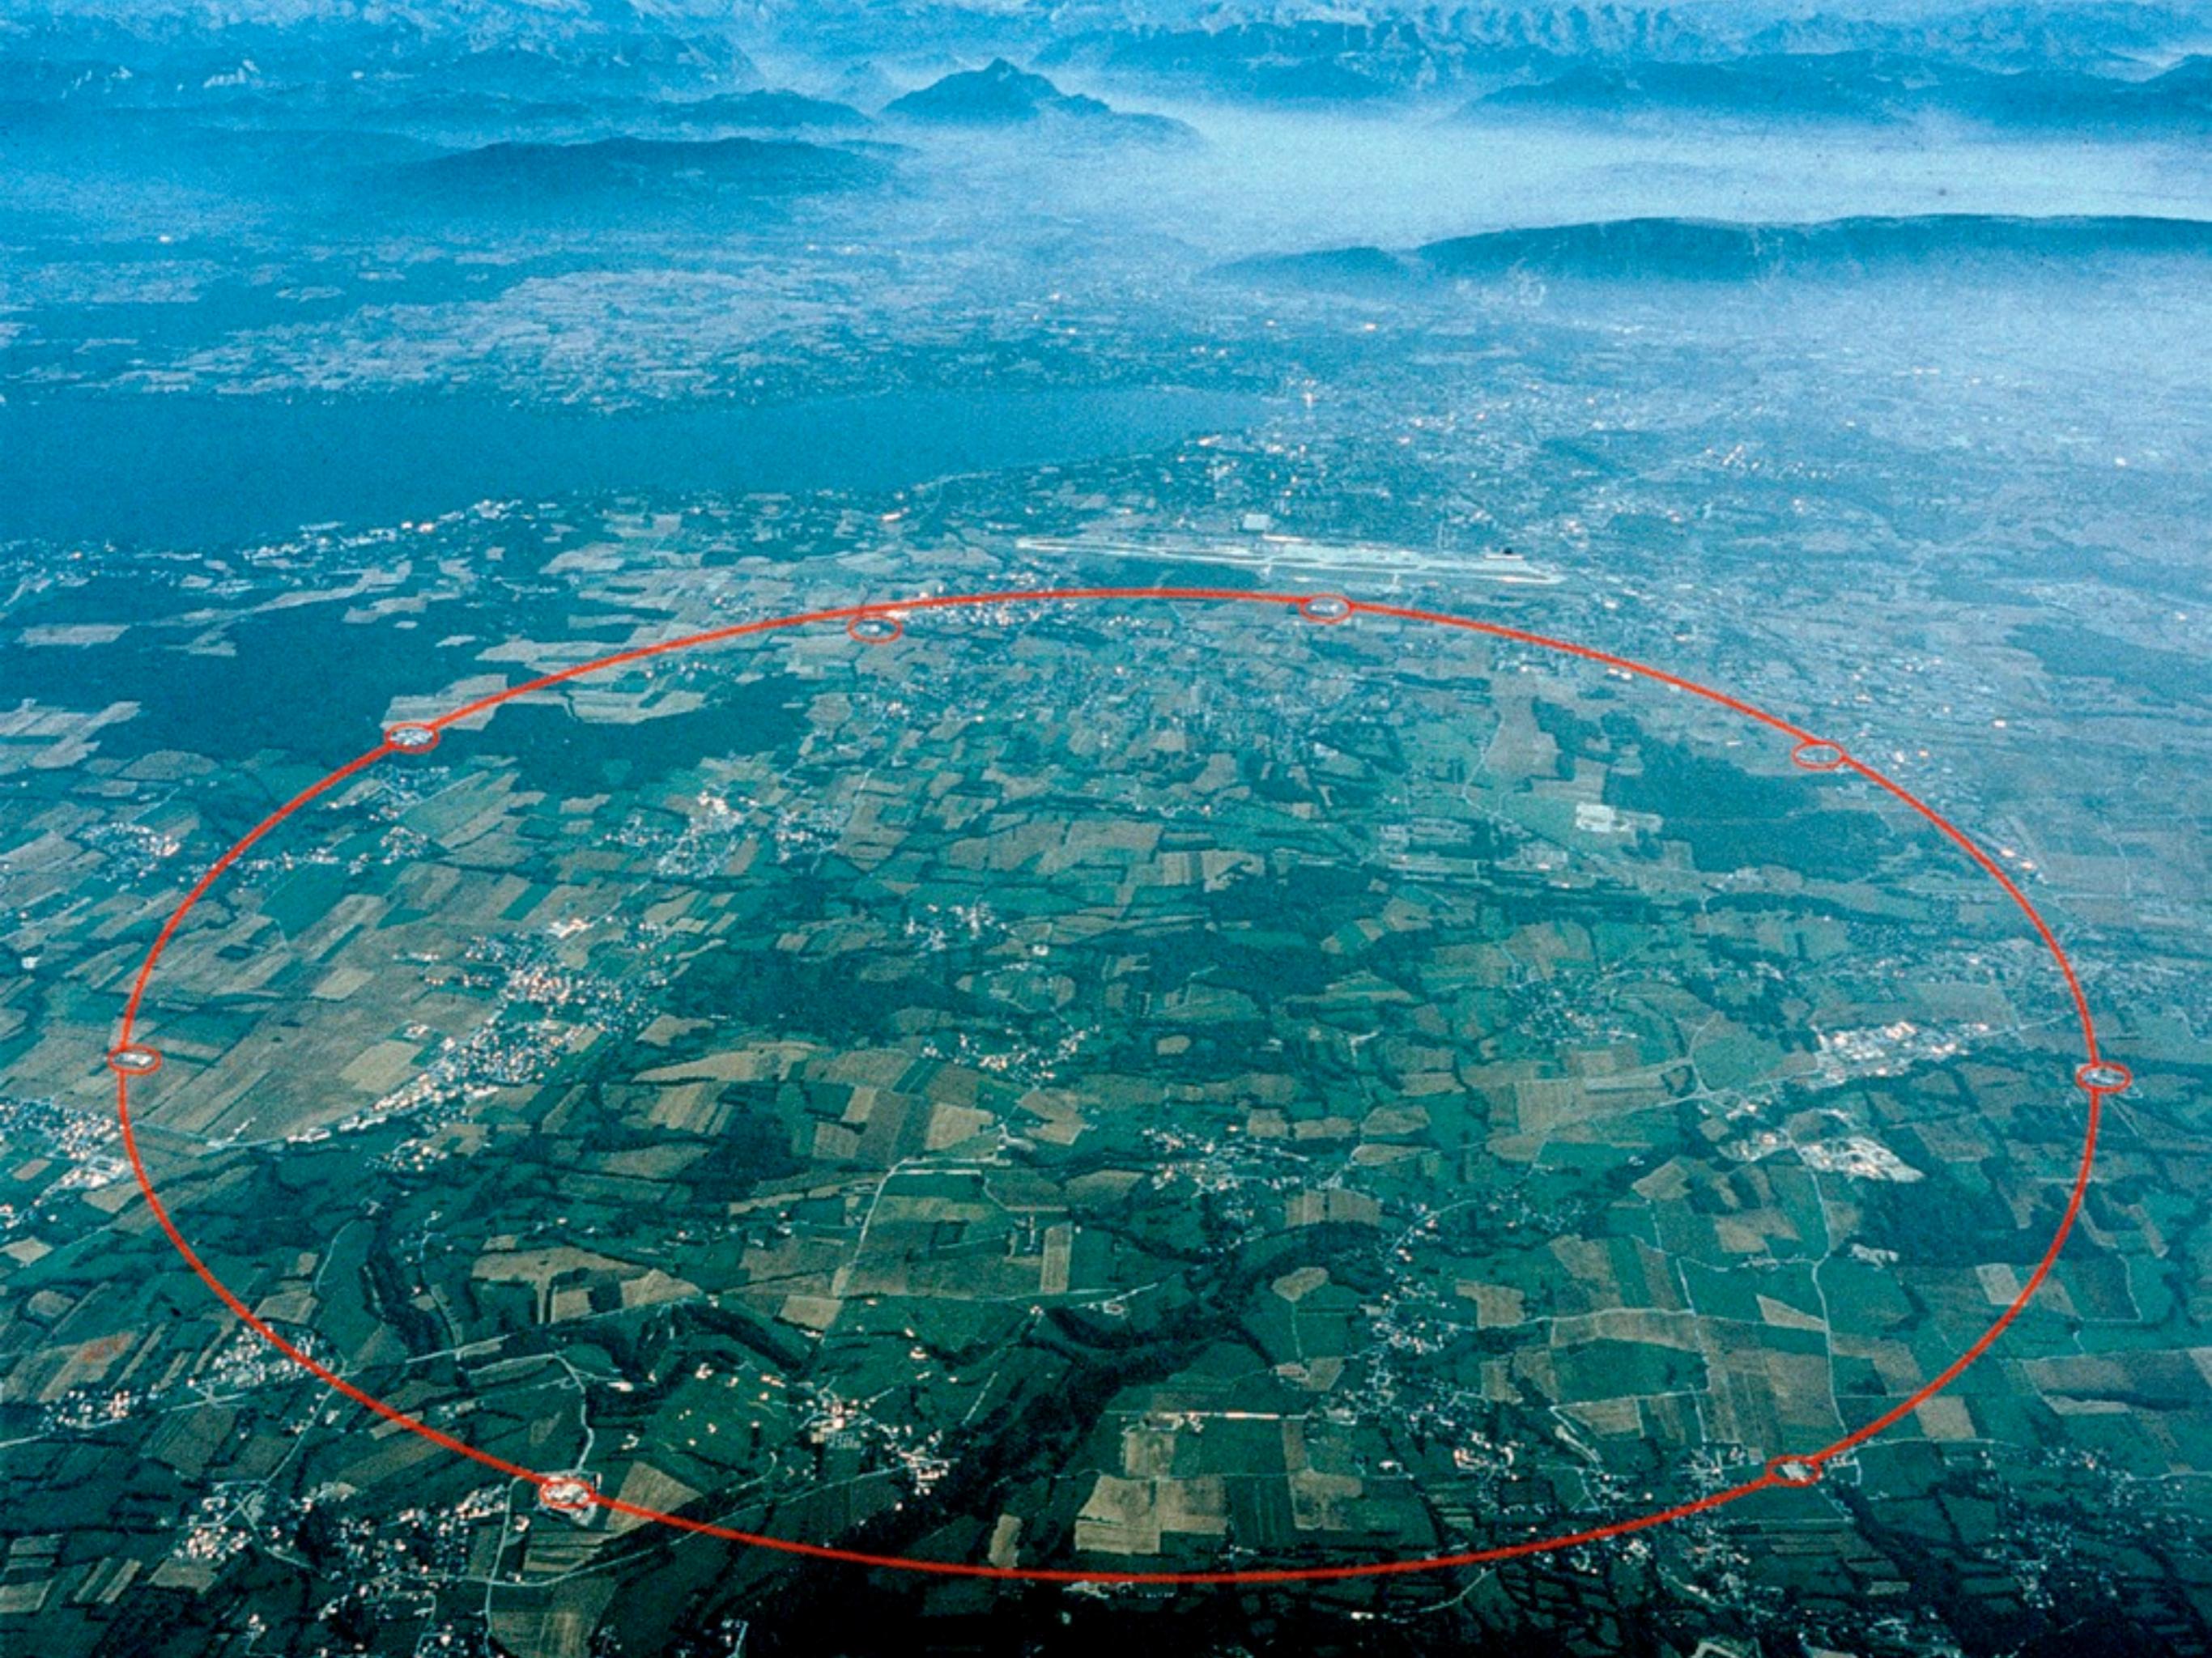

*"The Organization shall provide for collaboration among European States in nuclear research of a pure scientific and fundamental character (...). The Organization shall have no concern with work for military requirements and the results of its experimental and theoretical work shall be published or otherwise made generally available".*

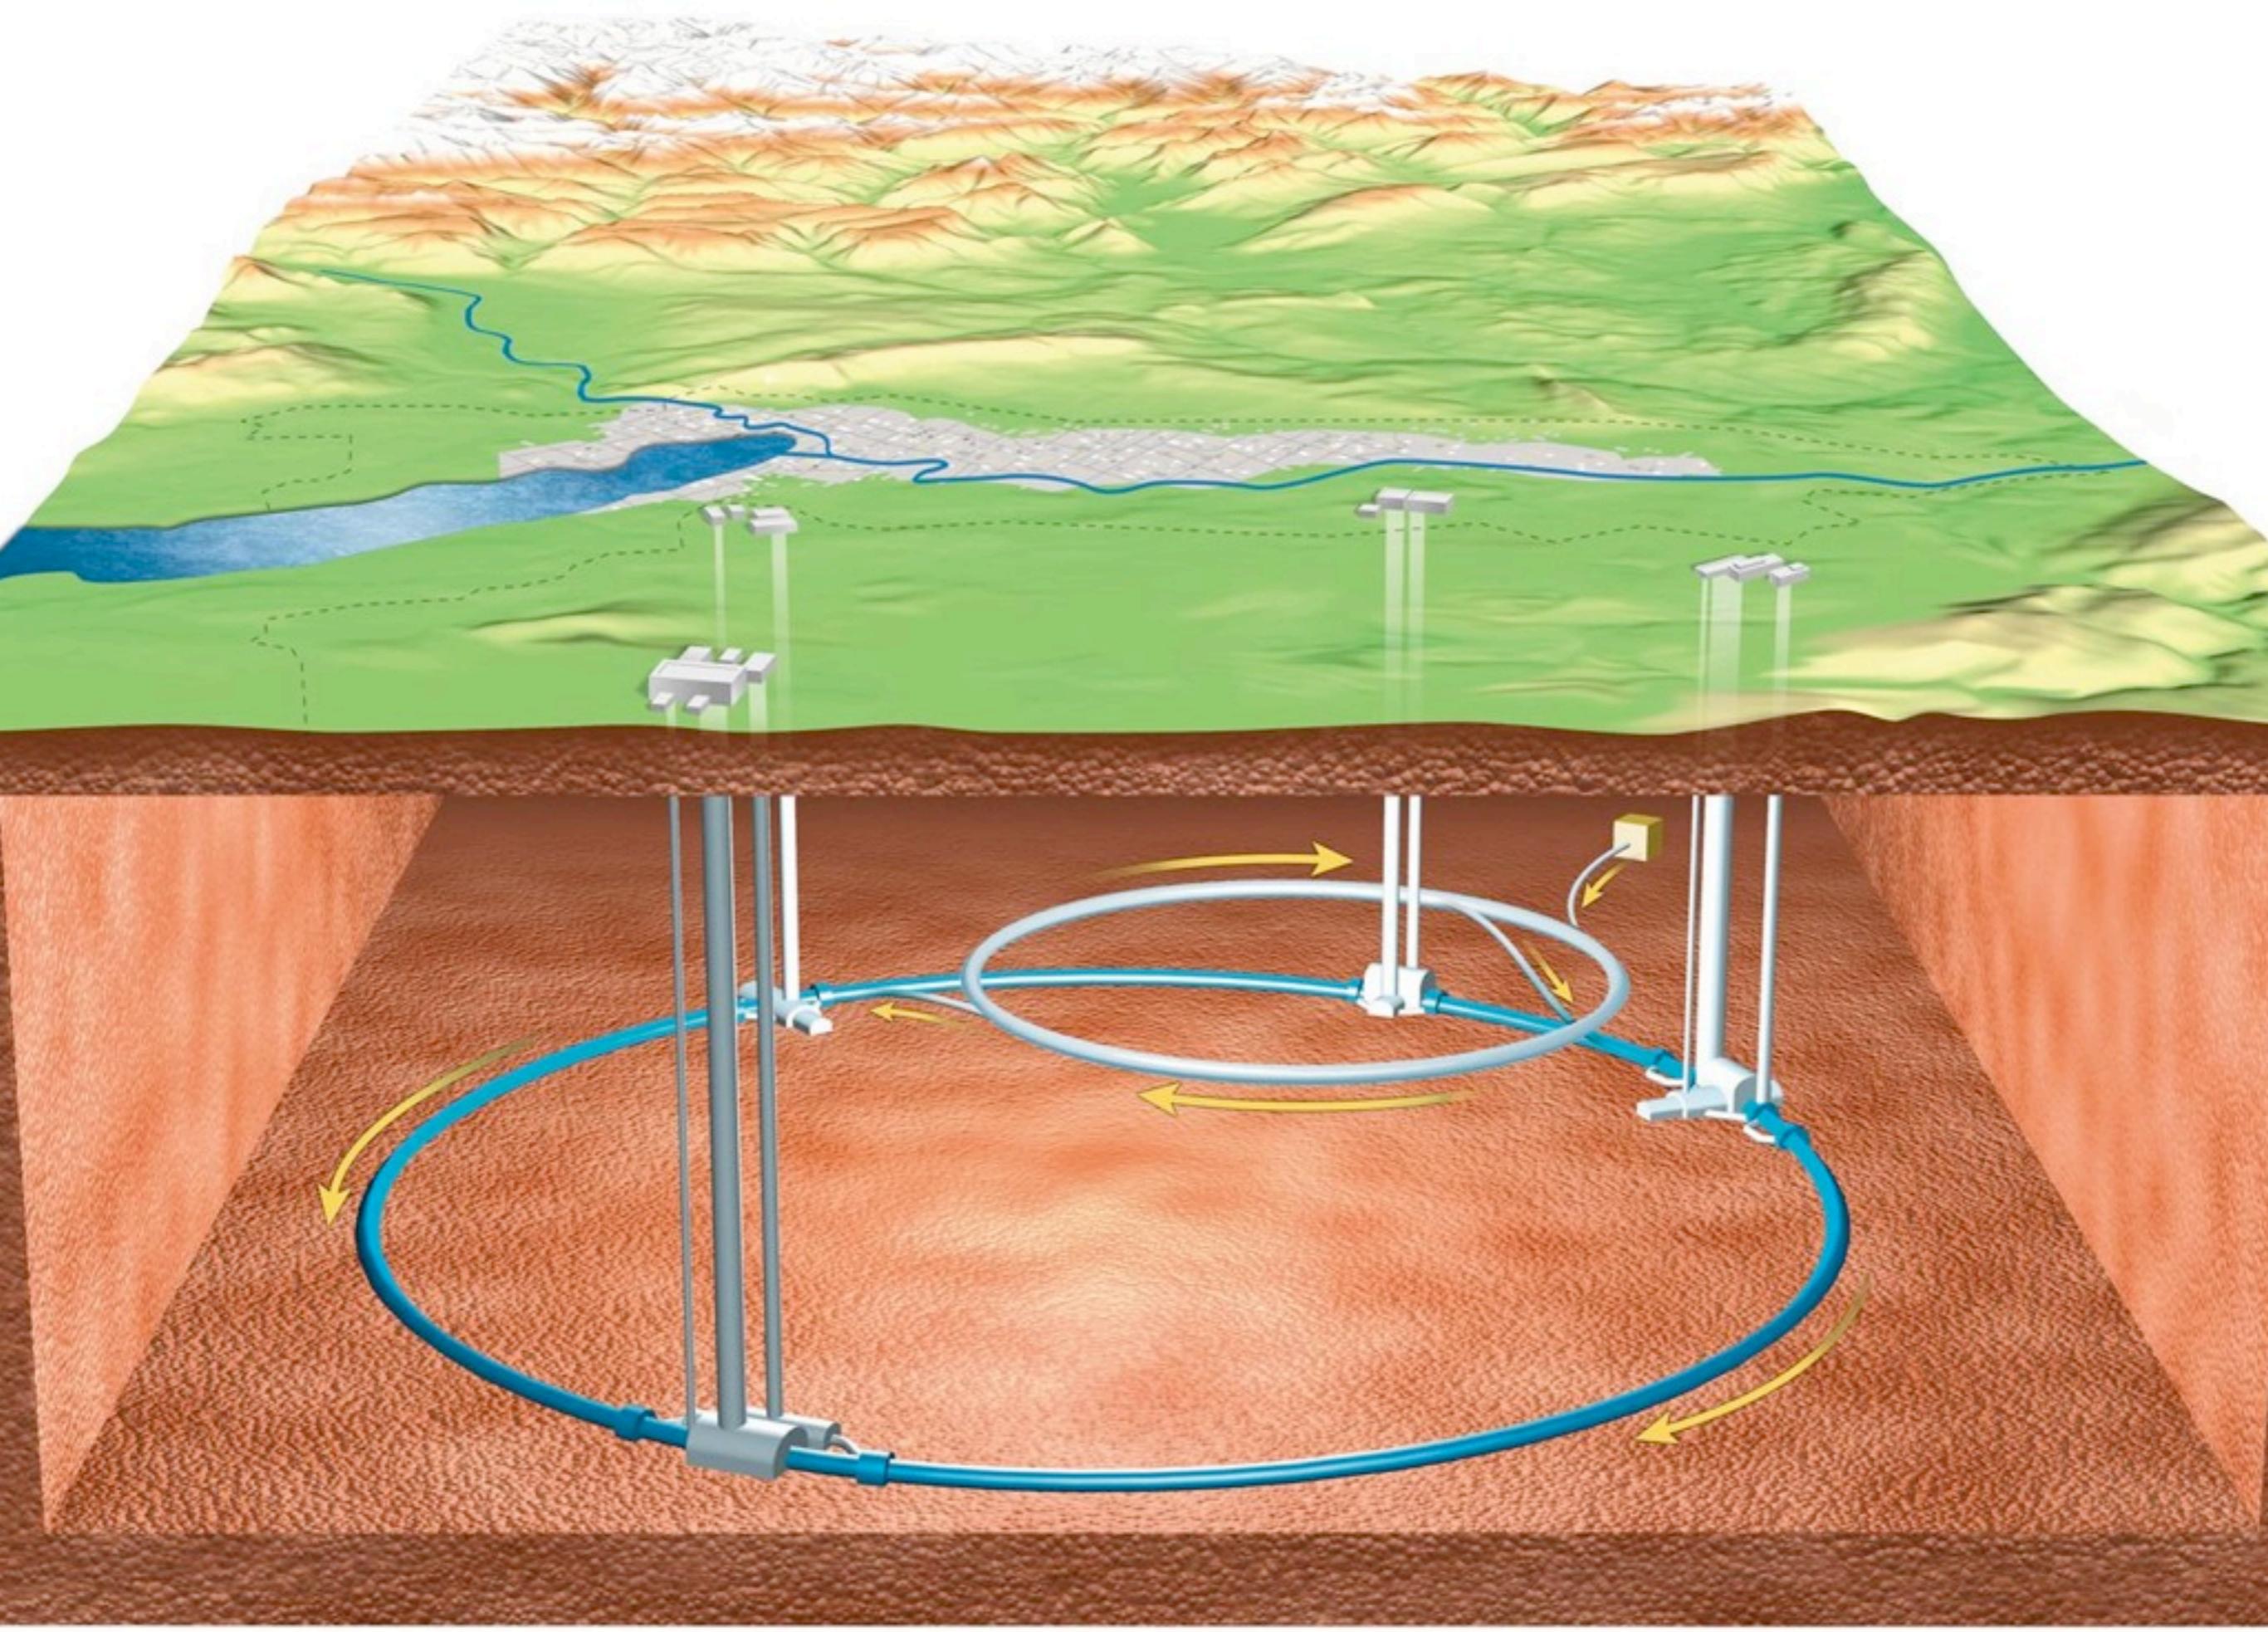

1993 CERN Preprint Server

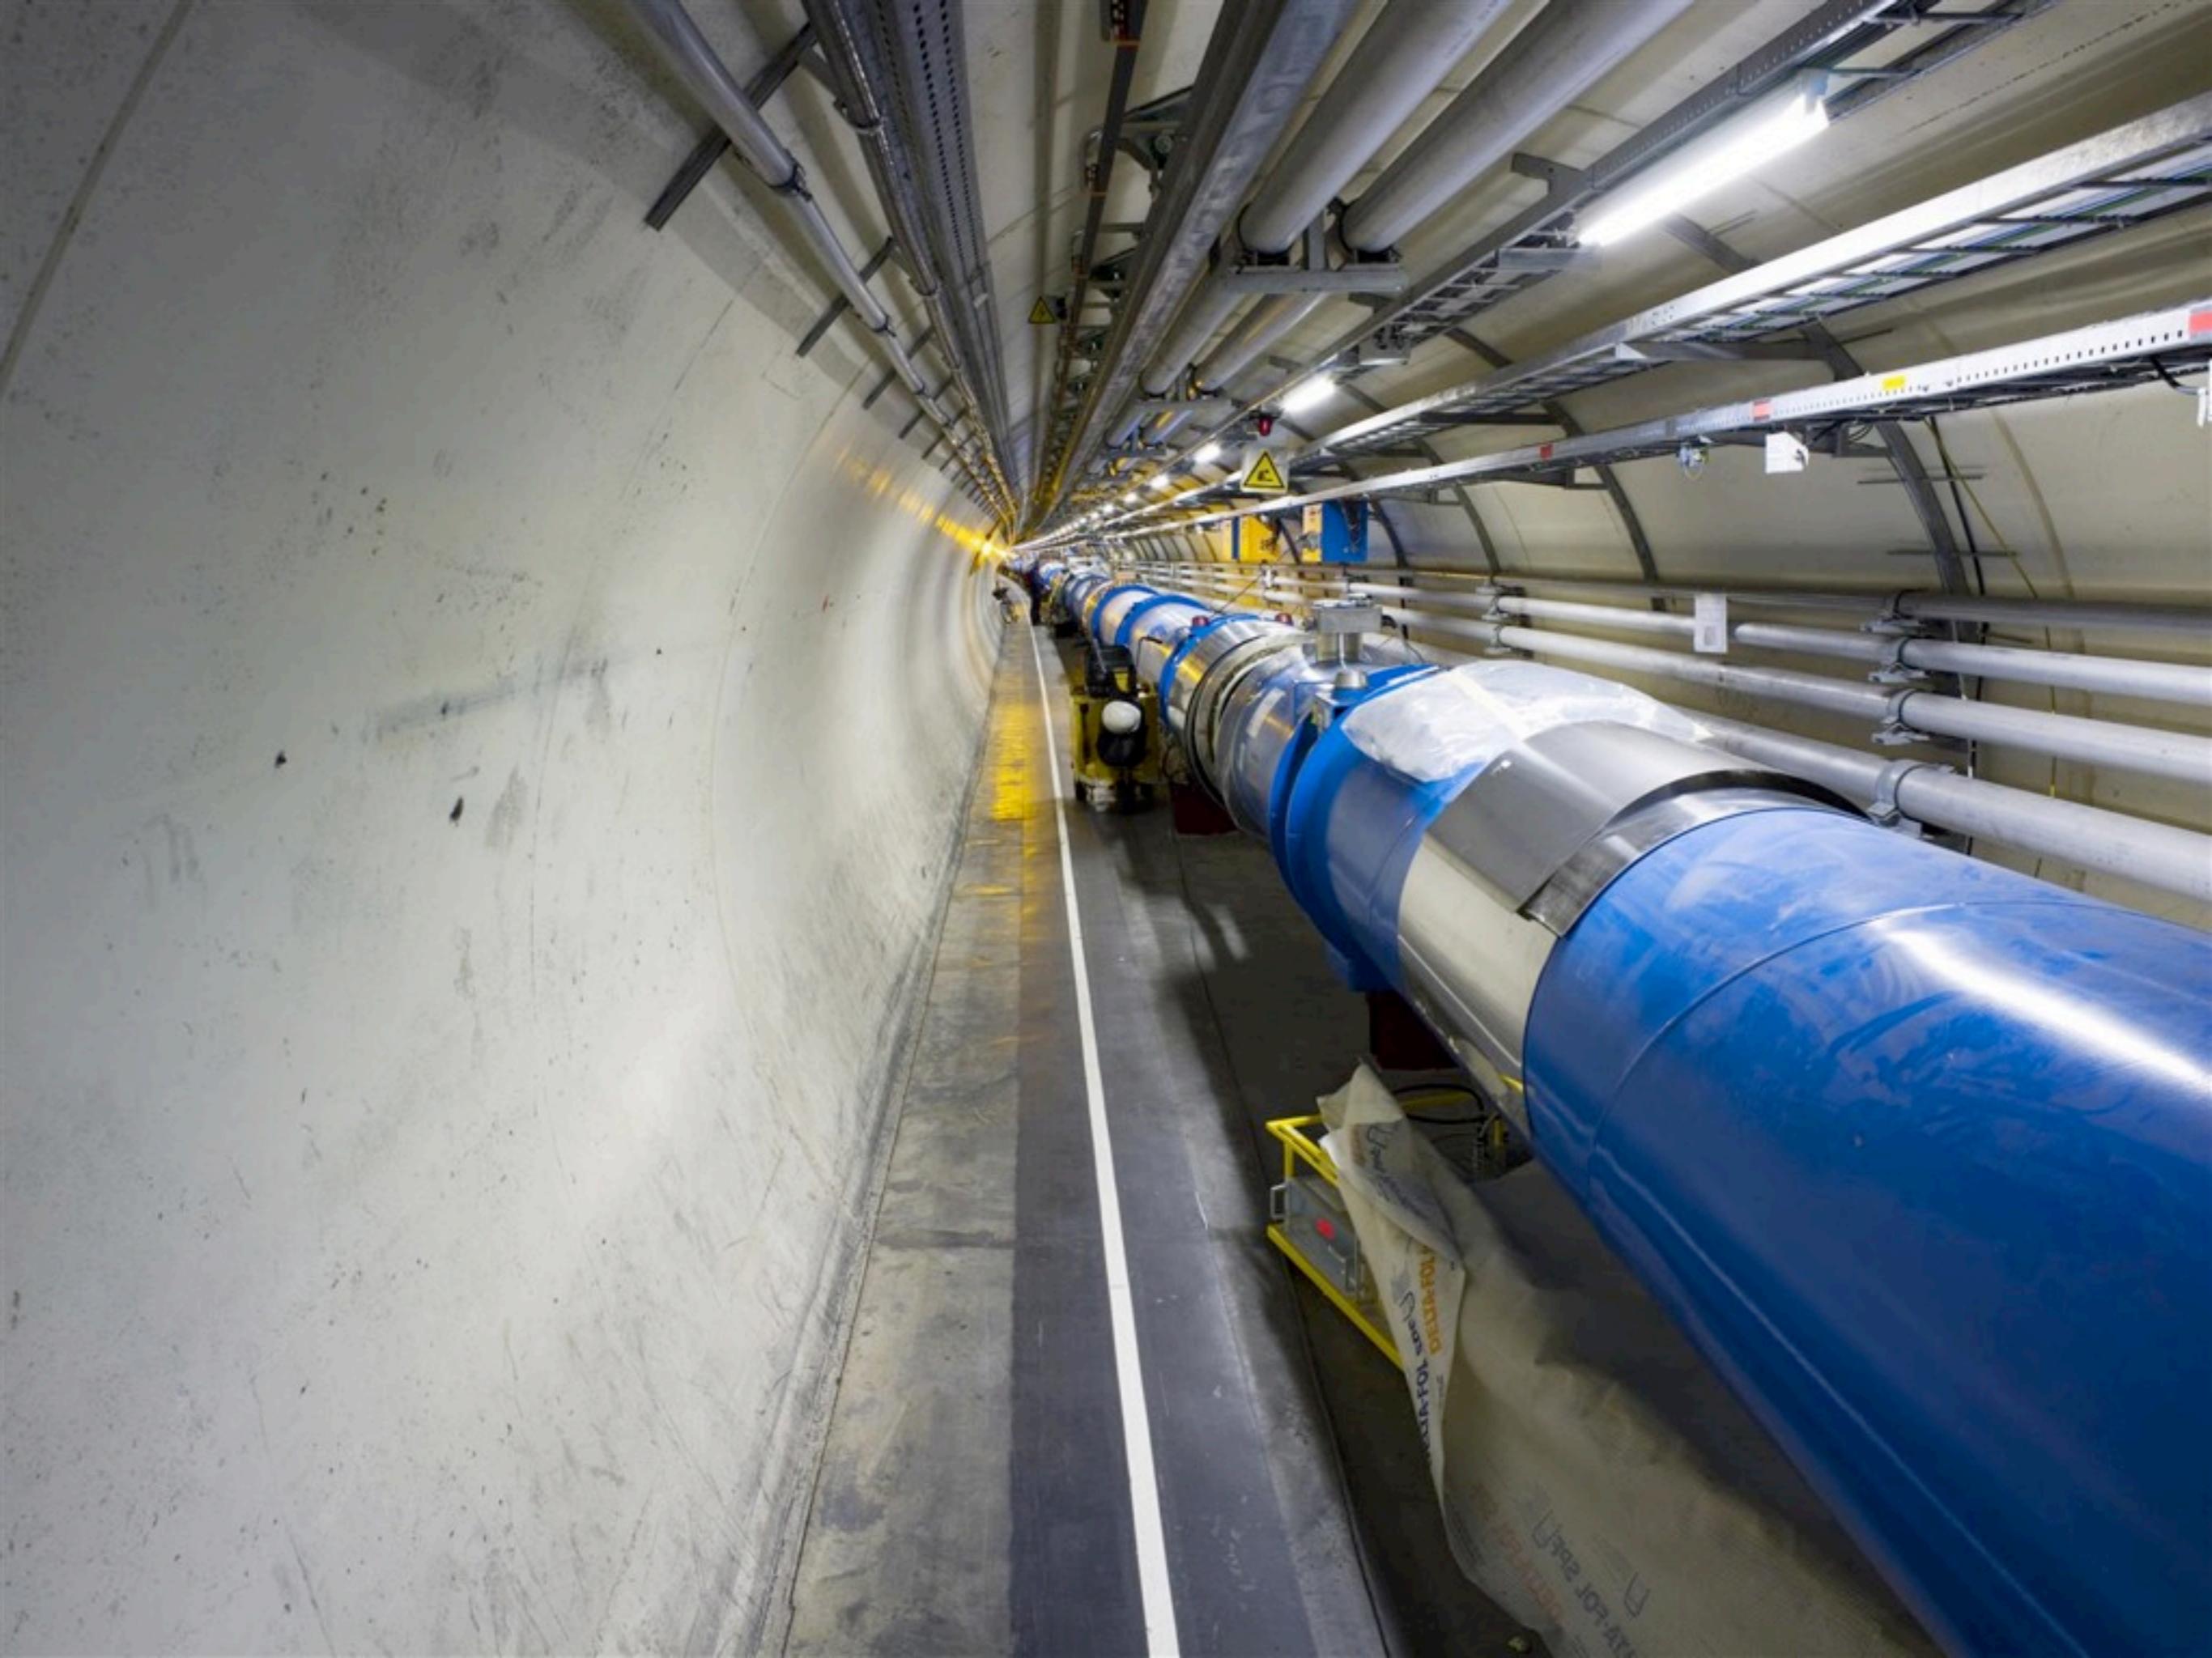

CERN Convention, Article II.1, 1954

institutionnelle

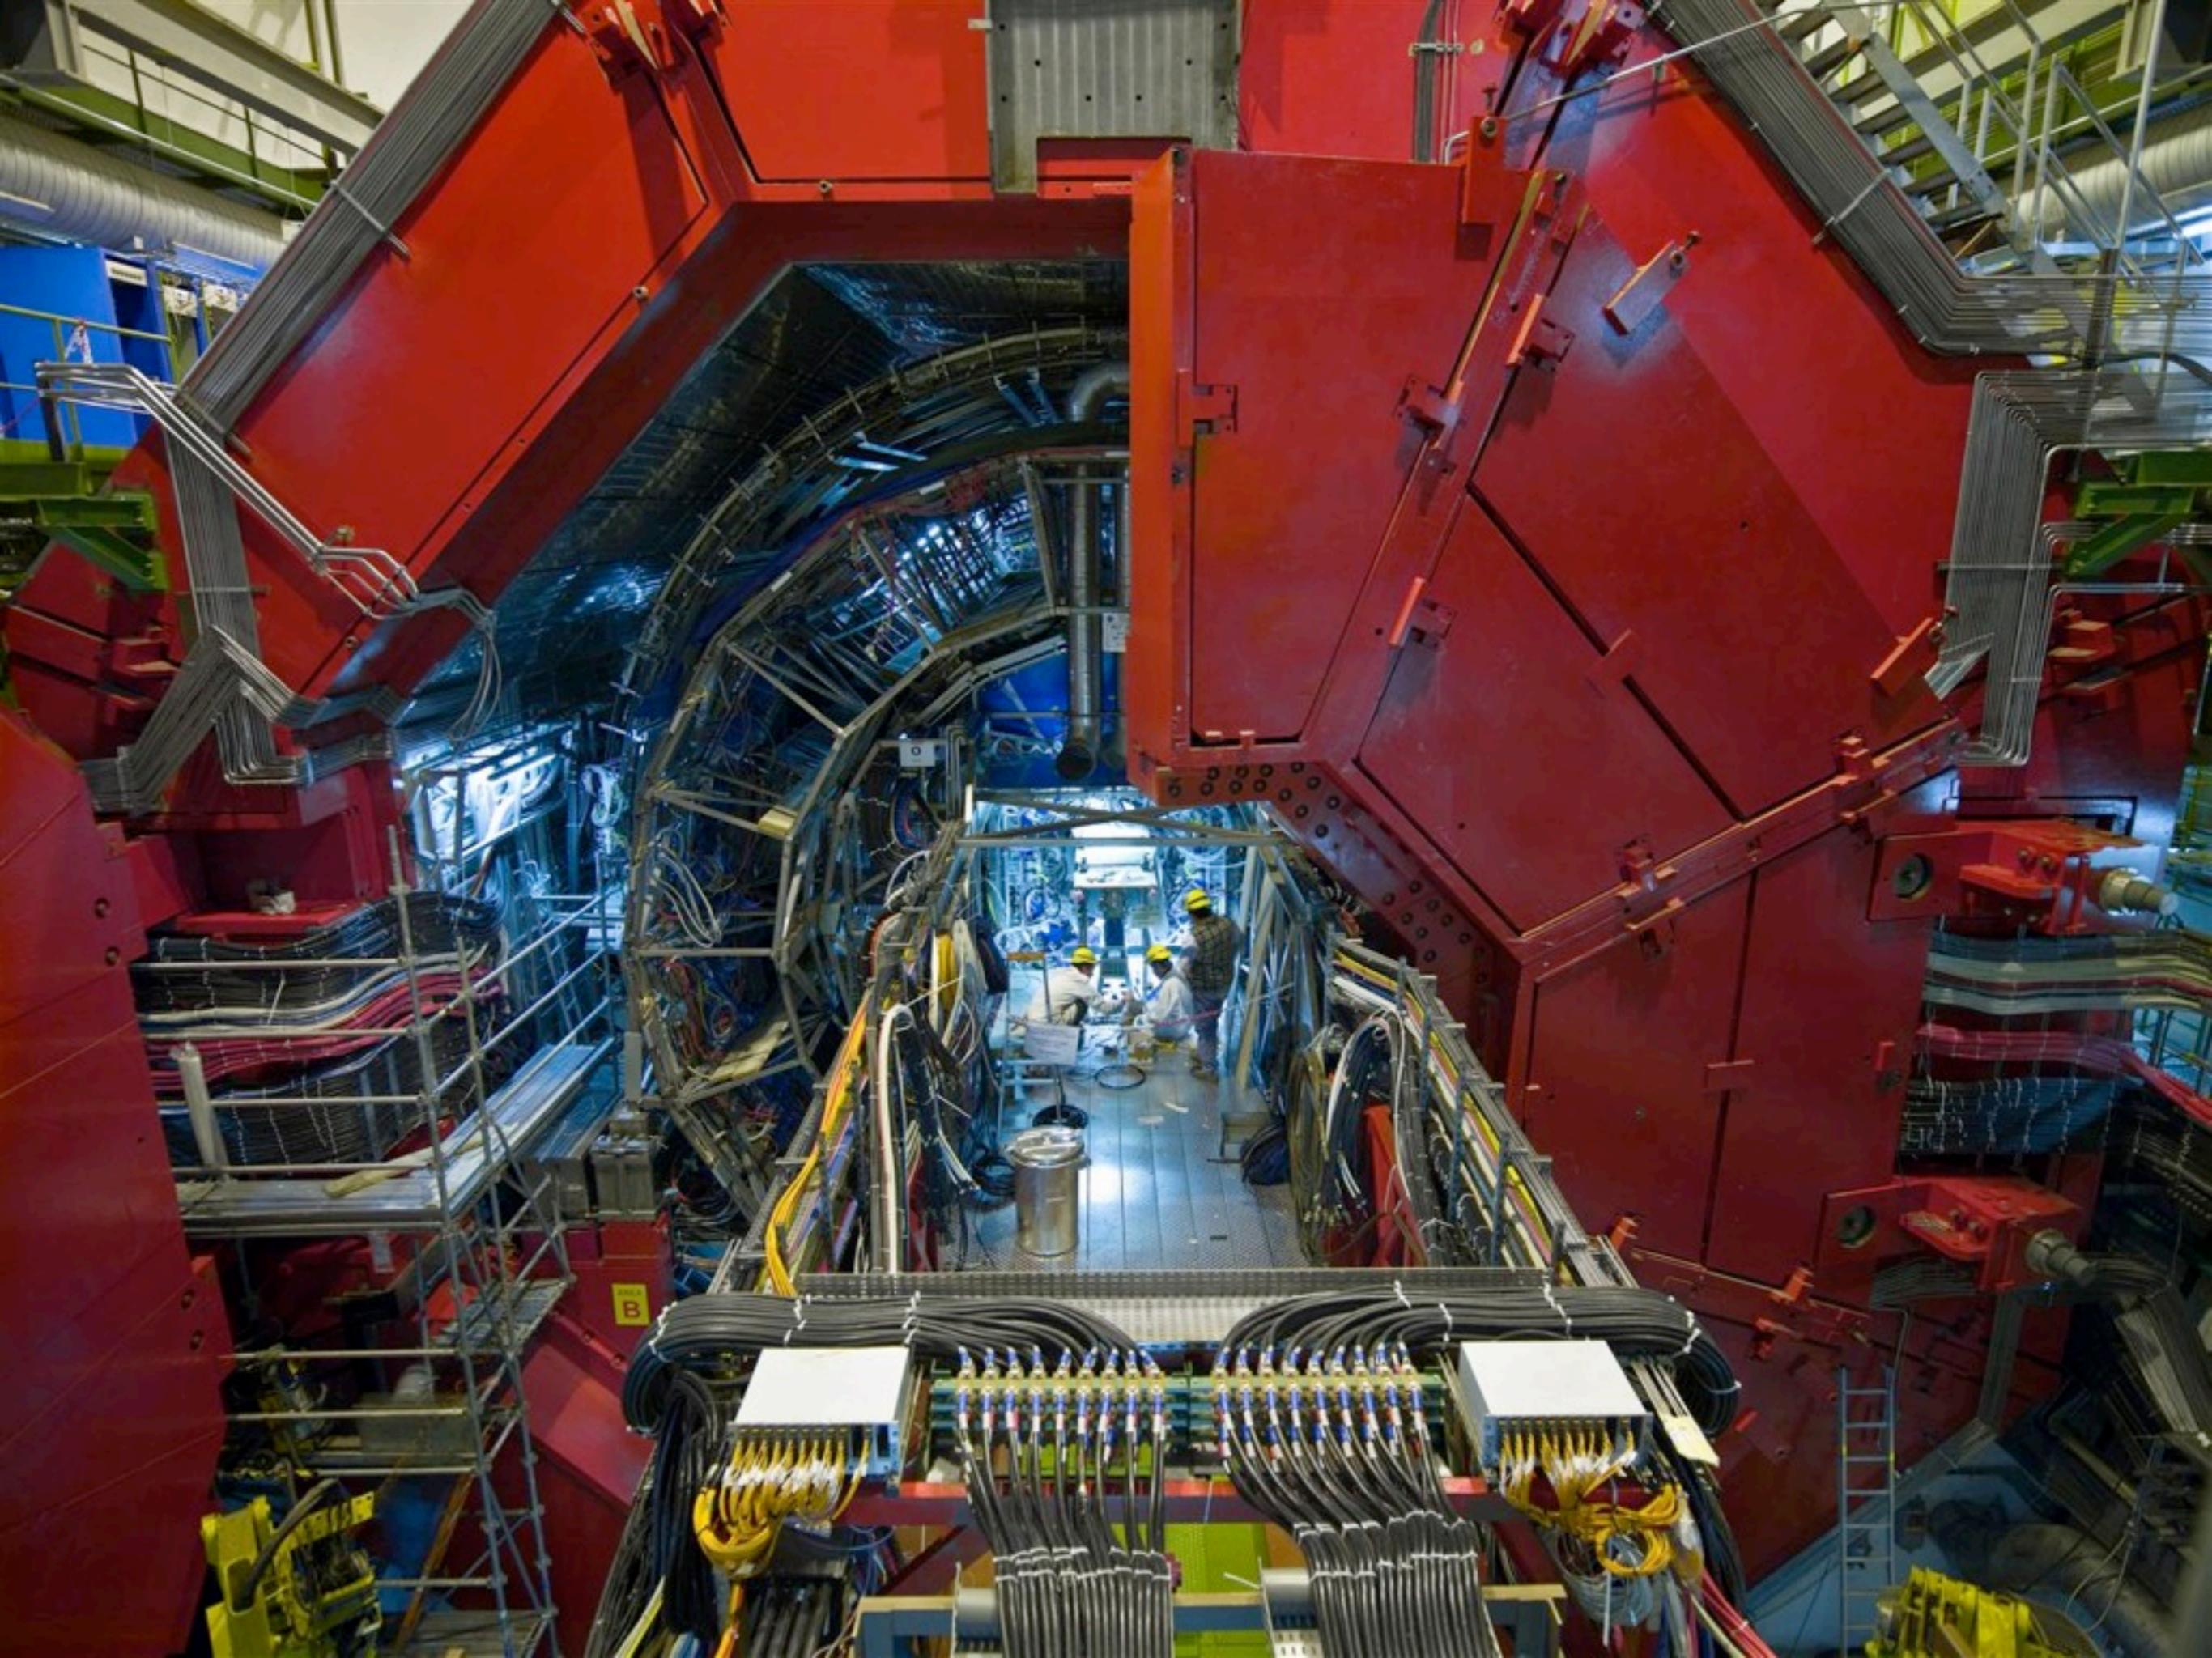

1996 CERN Library Server (weblib): ajout des livres, périodiques et "autres"

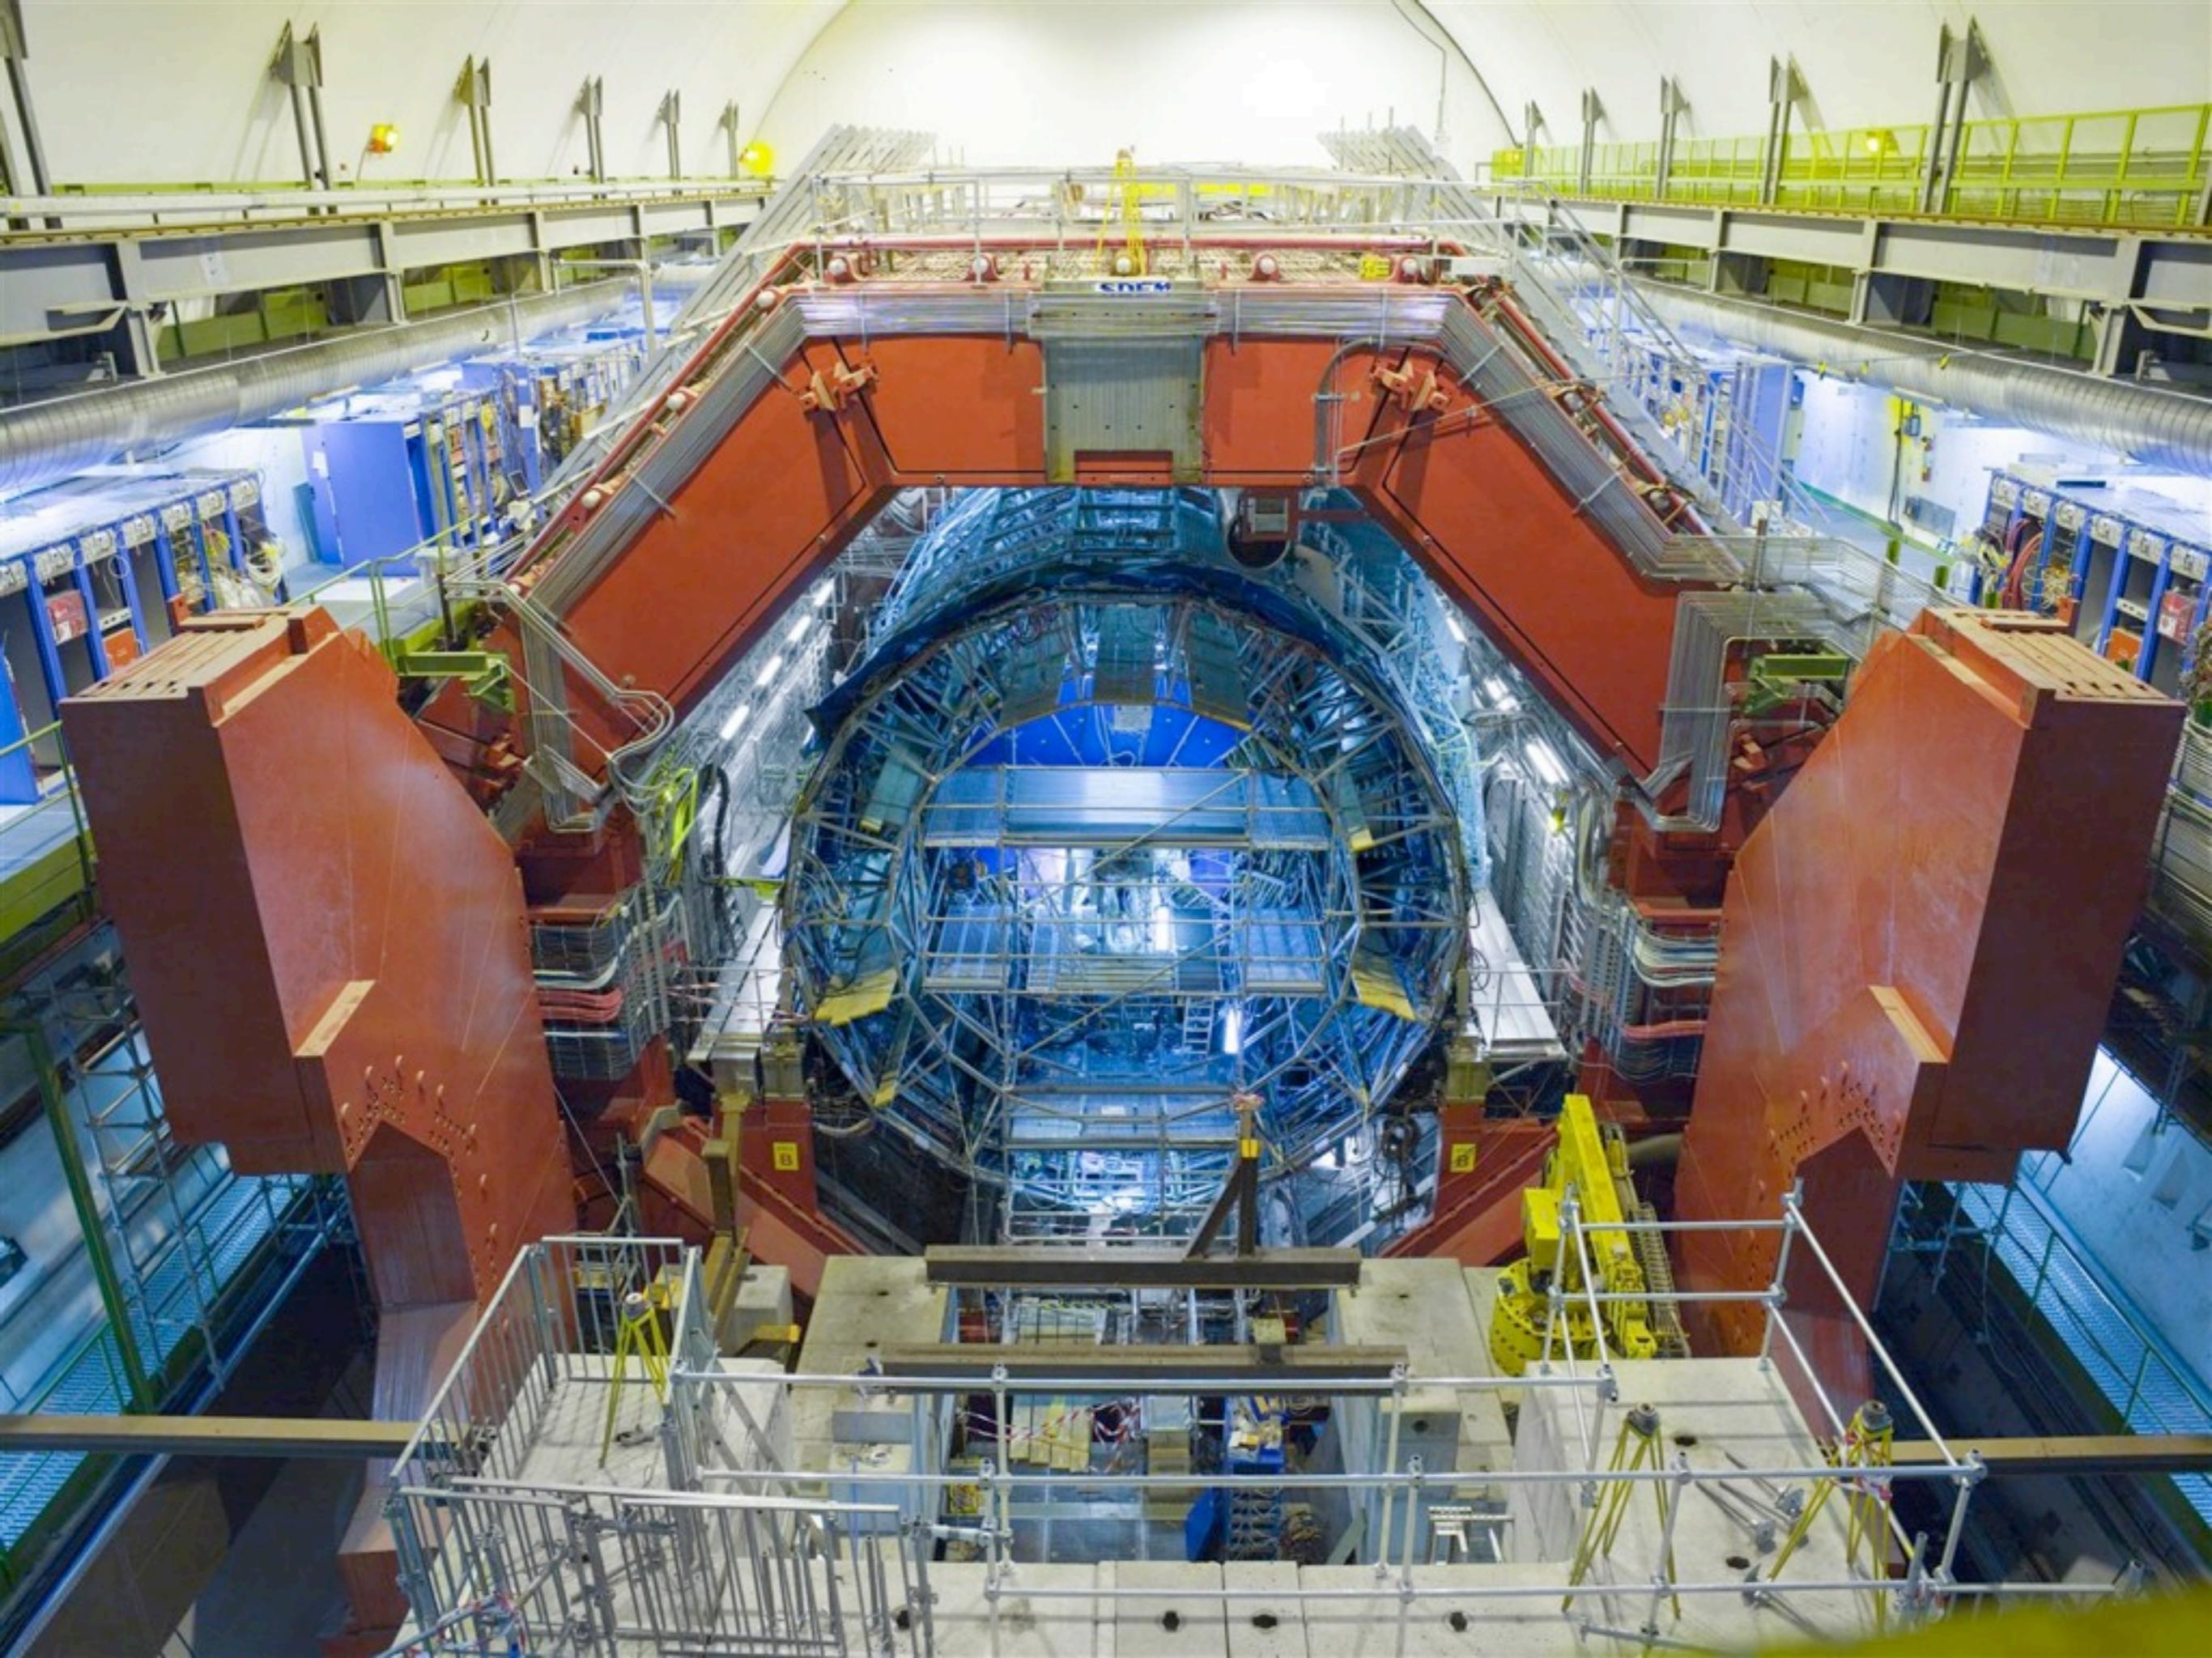

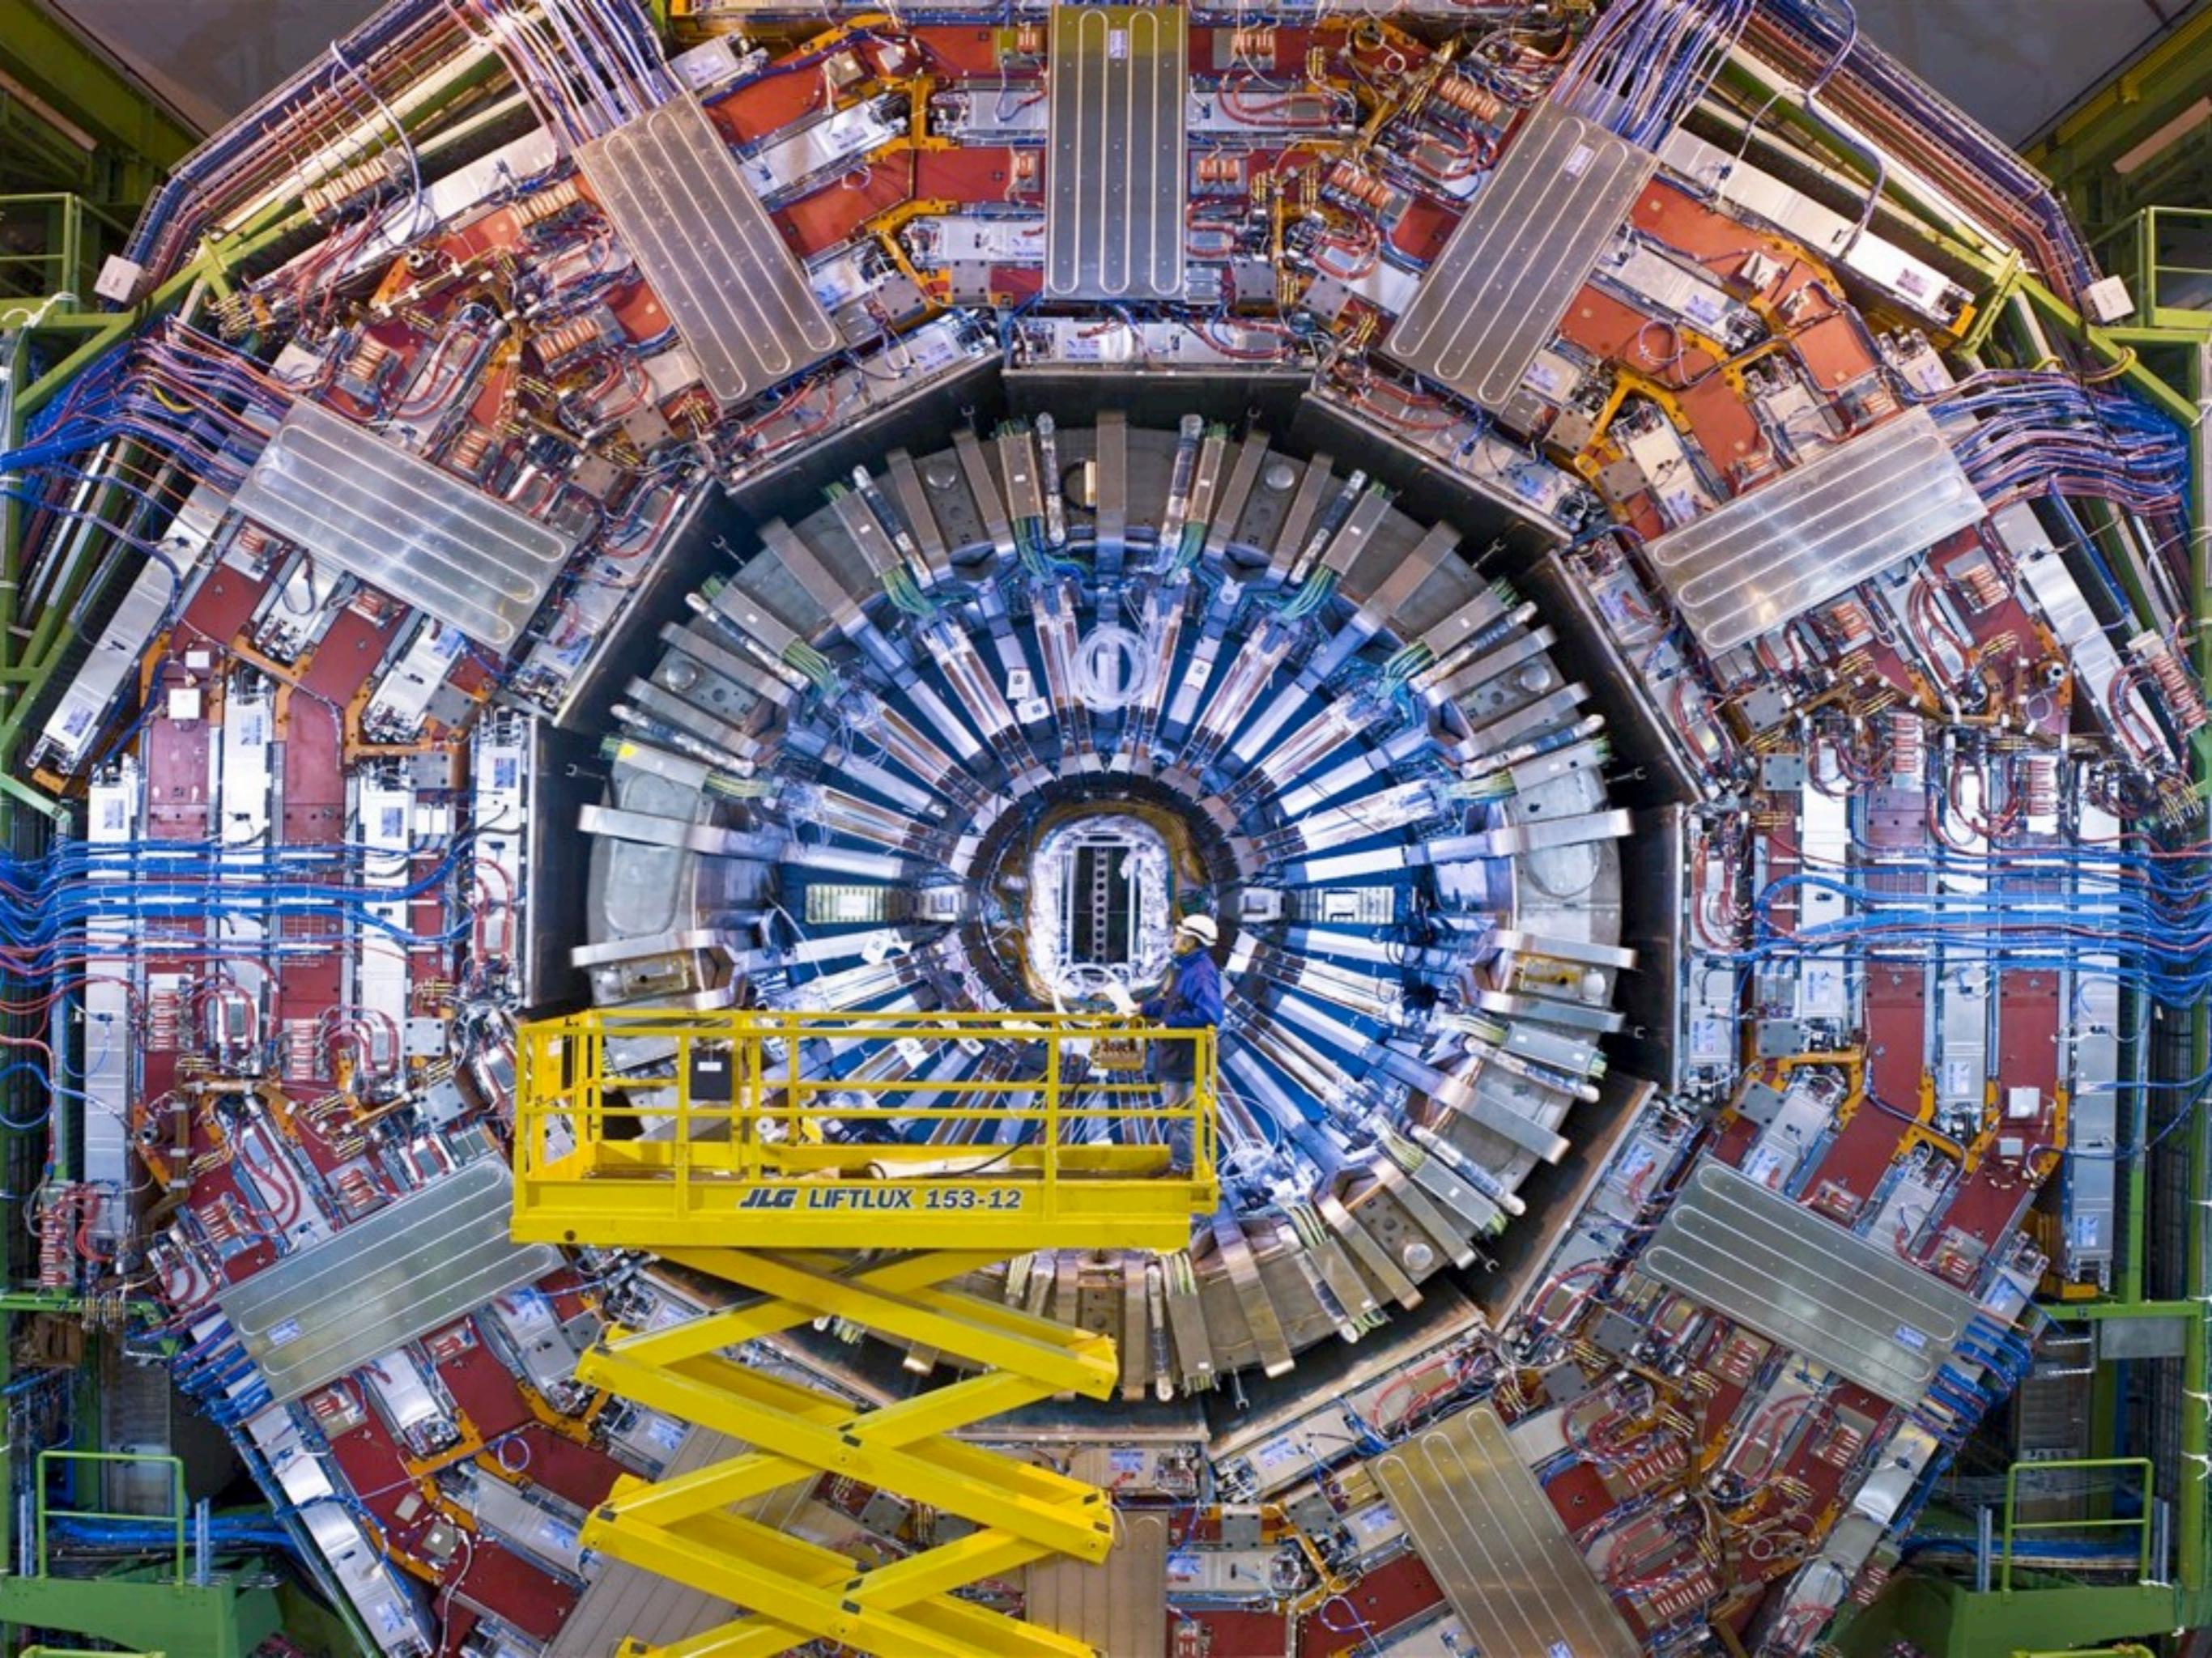

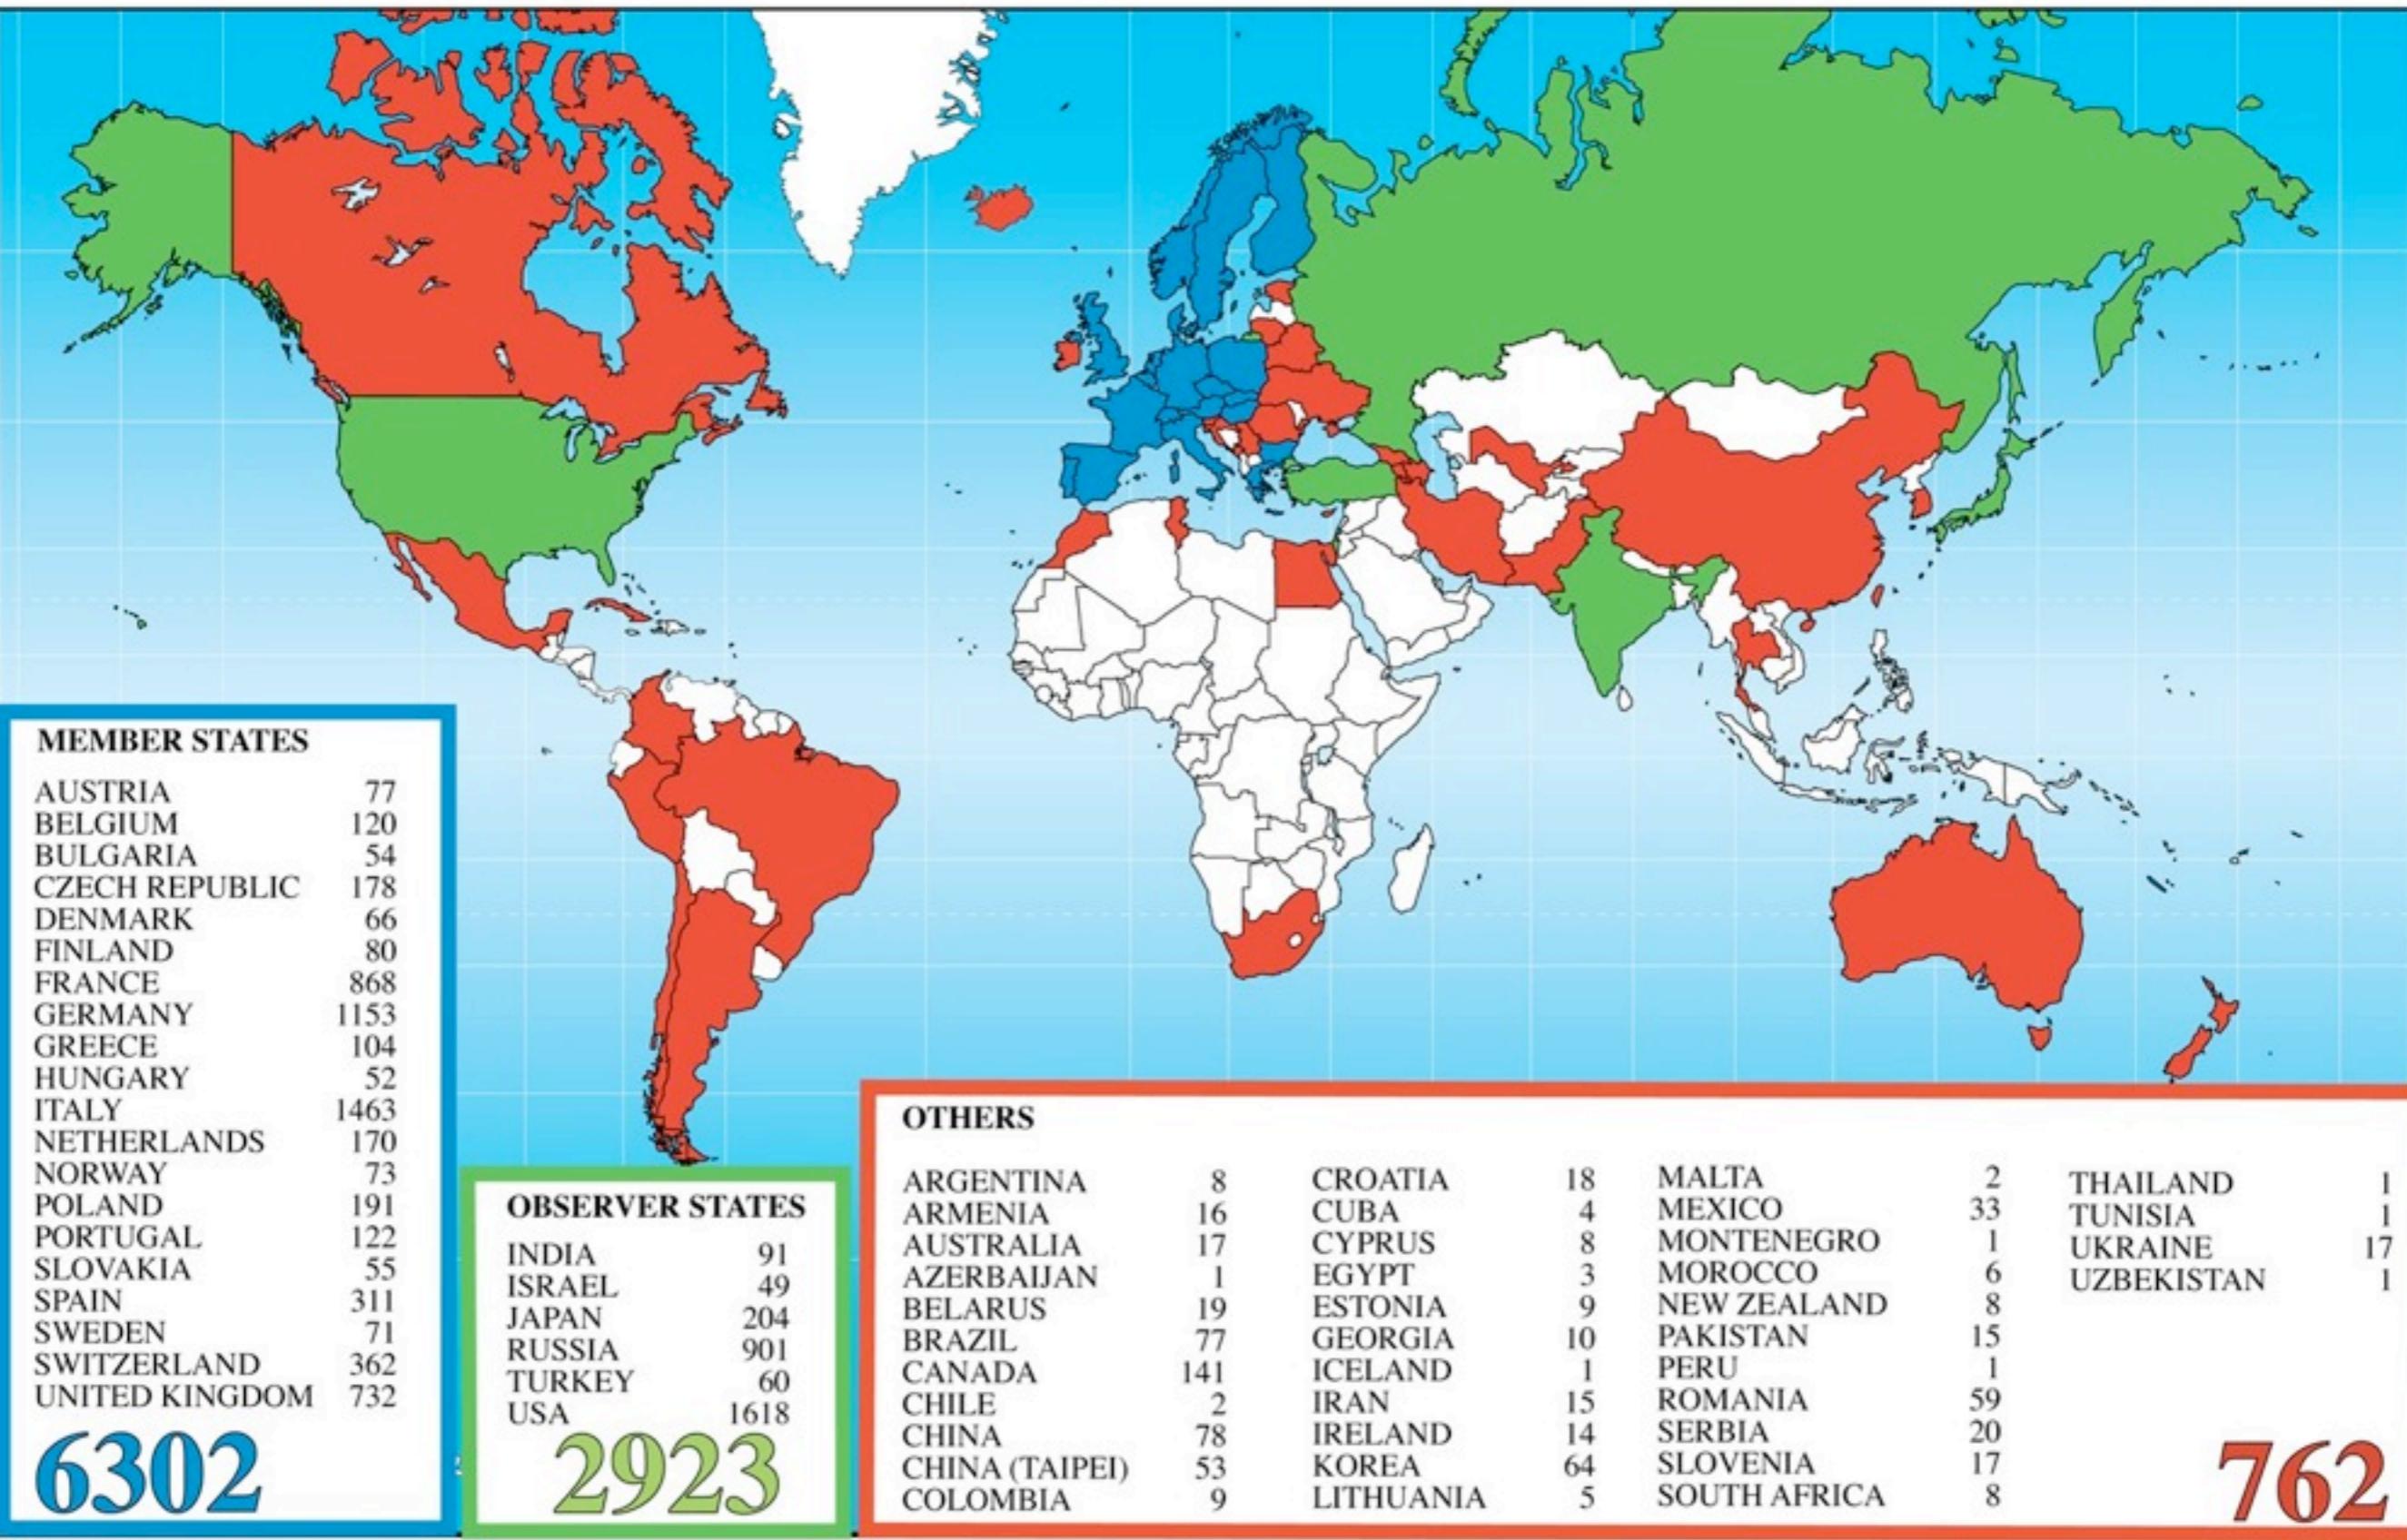

# Distribution of All CERN Users by Nation of Institute on 20 January 2010

# Histoire

- 2000** CERN Document Server: matériel multimédia, notes internes)
- 2002** Première version (CDSware). Installations mondiales. Collaborations internationales.
- 2006** Renommé "Invenio"
- 2007** Début collaboration avec SPIRES
- 2008-2010** nouvelles fonctionnalités, optimisations, changement du modèle de développement et stabilisation du code pour Invenio 1.0
- Début collaboration avec NASA-ADS

The screenshot shows the homepage of the Atlantis Institute of Fictive Science. At the top, there's a search bar with the placeholder "Search 96 records for:" and a dropdown menu set to "any field". Below the search bar are buttons for "Search" and "Browse". To the right of the search bar is a "ABOUT THIS SITE" section with a welcome message and links to "Search Tips" and "Advanced Search". On the left, there's a sidebar titled "Narrow by collection:" with checkboxes for "Articles & Preprints" (63), "Books & Reports" (24), and "Multimedia & Arts" (9). To the right of the sidebar is a "Focus on:" section with links to "CERN Divisions" (5), "Experimental Physics (EP)" (1), "Theoretical Physics (TH)" (4), "CERN Experiments" (2), "ALEPH" (1), "ISOLDE" (1), and "Pictures" (7) and "Poetry" (2).

Métadonnées **MARCXML** + Fichiers(s)

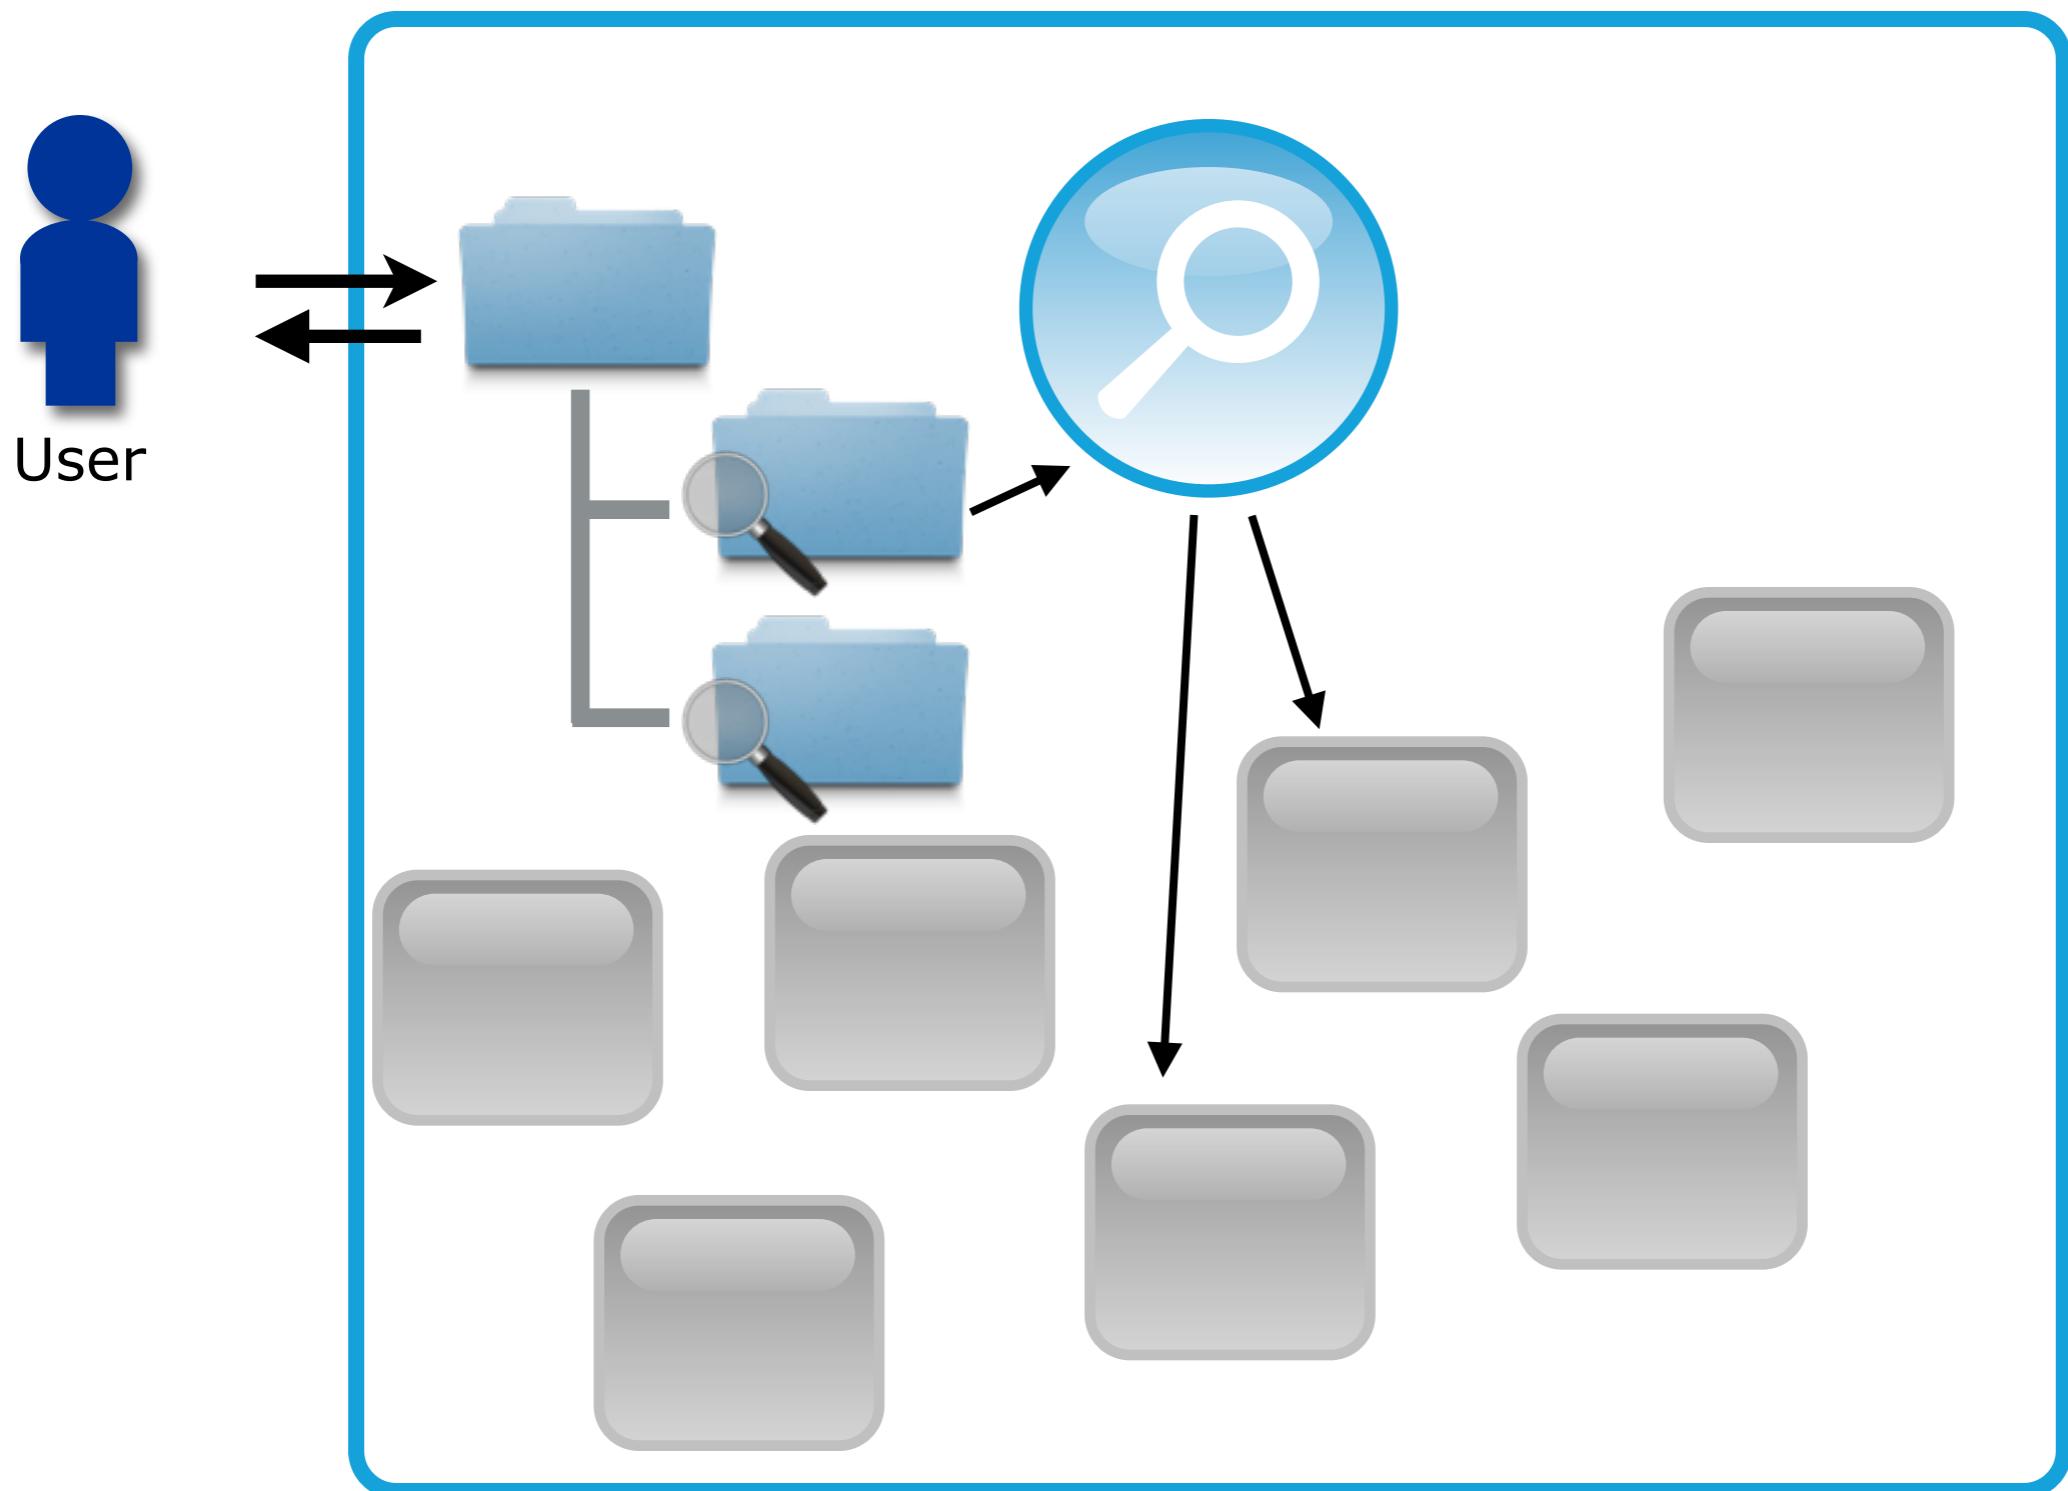

# Moteur de recherche

# Moteur de recherche

# Collections

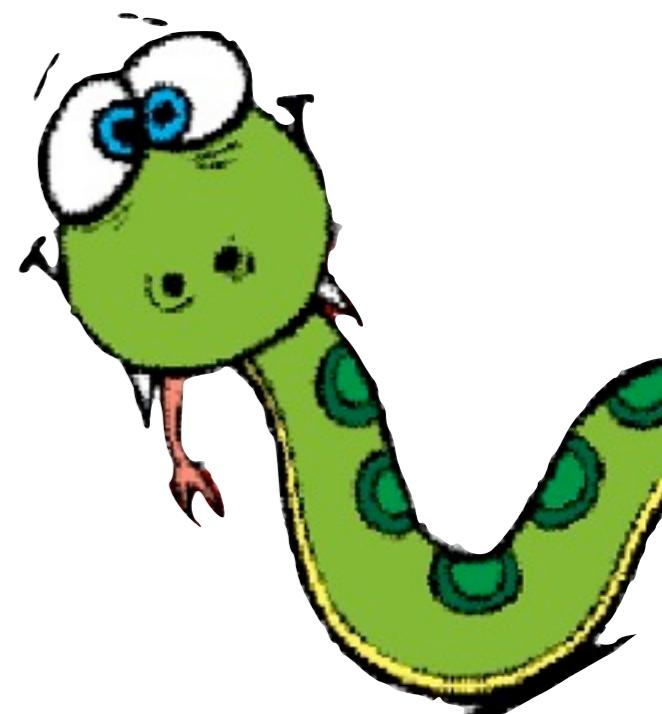

# Concepts de base

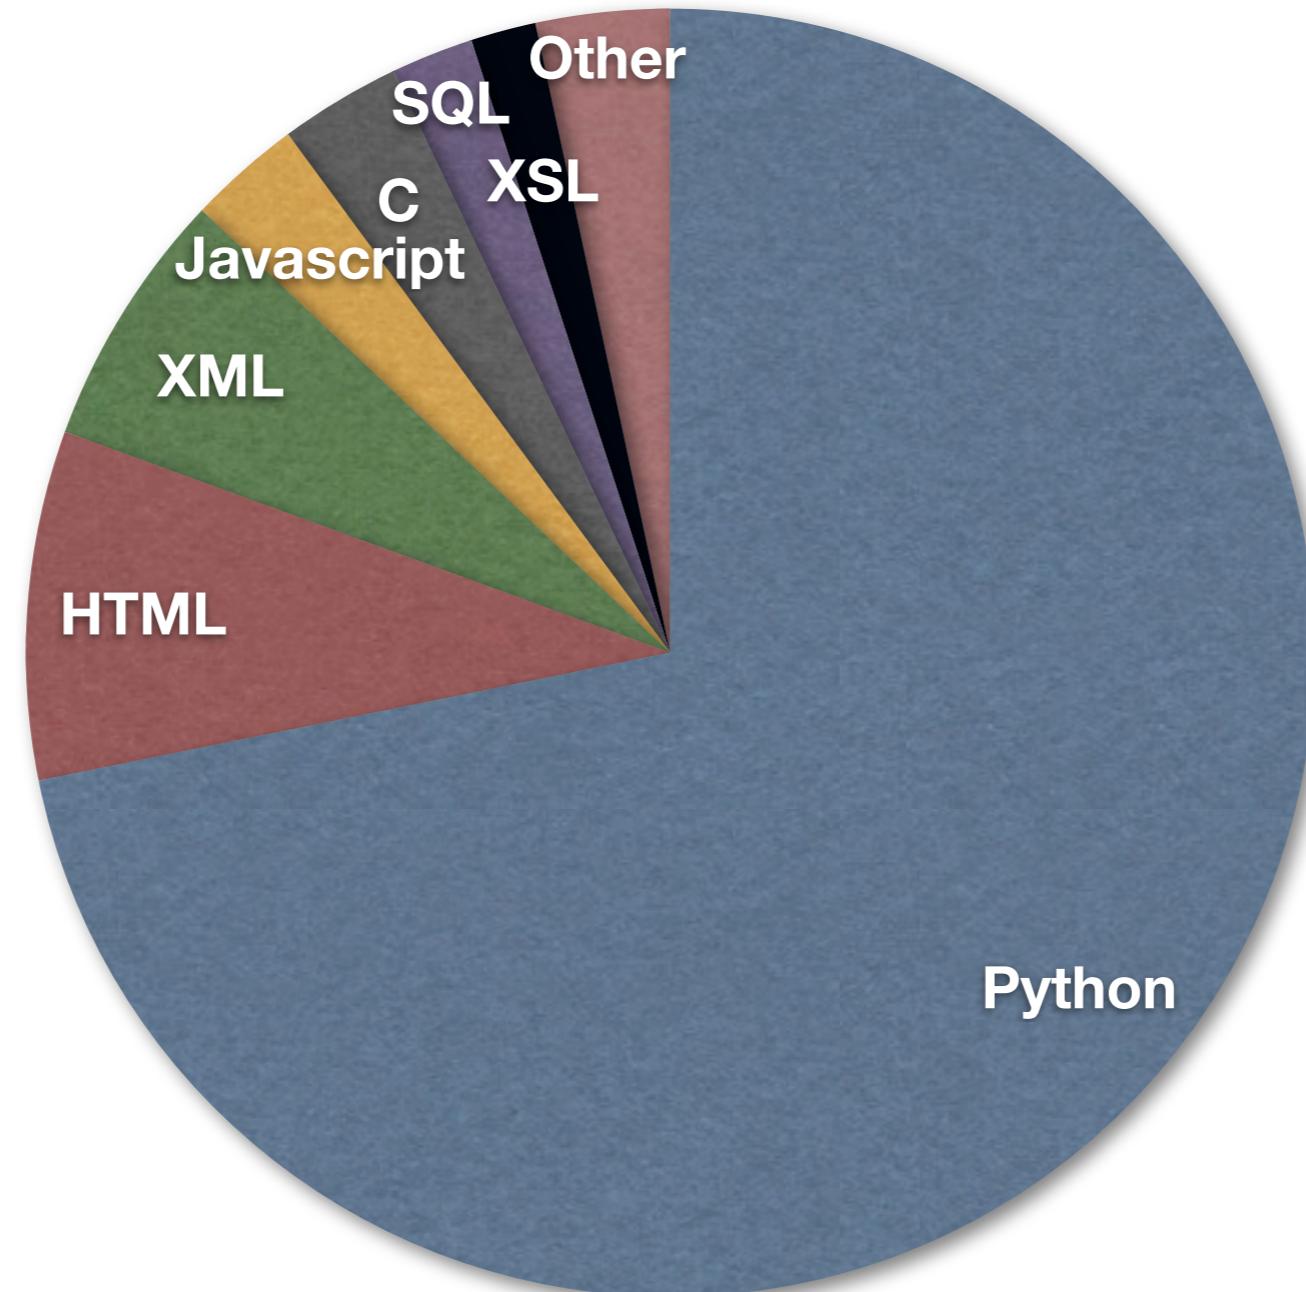

- Un moteur de recherche au cœur d'Invenio
  - Rapide, optimisé pour des infrastructures légères
  - Syntaxe et rapidité "à la Google"
  - Recherches structurées avancées (métadonnées, références, texte)
- Arborescence de collections "intelligentes"
- Des records / métadonnées au format MARCXML

# Architecture

- Open Source GNU GPL
- Python (et C et Lisp), MySQL et Apache
- Architecture modulaire. Scriptable.
- Basé sur des standards ouverts  
(MARCXML, MARC21, OAI-PMH, OpenURL...)
- Pour des archives de tailles moyenne à large
- Développement organique

# Architecture

# Intégration & Personnalisation

# Personalisation du style

Chaque  
bloc  
composant  
l'interface

The screenshot shows the homepage of the Atlantis Institute of Fictive Science. Several UI components are highlighted with red arrows and boxes:

- A large red box encloses the entire header area, labeled "Chaque bloc composant l'interface".
- A red box highlights the "Narrow by collection:" section, which contains three checked checkboxes: "Articles & Preprints" (63), "Books & Reports" (24), and "Multimedia & Arts" (9). Below these are links for "Articles" (27), "Preprints" (36), "Books" (14), "Theses" (8), "Reports" (2), "Pictures" (7), and "Poetry" (2).
- A red box highlights the "Focus on:" section, which lists "CERN Divisions" (5), "Experimental Physics (EP)" (1), "Theoretical Physics (TH)" (4), "CERN Experiments" (2), "ALEPH" (1), and "ISOLDE" (1).
- A red box highlights the "ABOUT THIS SITE" sidebar, which includes a welcome message, links to "SEE ALSO" (CDS Invenio, CERN, Google), and language selection options.
- A red box highlights the "Arbre des collections" (Collection tree) diagram, which connects the "Narrow by collection:" and "Focus on:" sections.
- A red box highlights the footer area, which includes links to "Atlantis Institute of Fictive Science :: Search :: Submit :: Personalize :: Help", information about the software being CDS Invenio v0.99.1, and language support for various languages.

- Système de "templates", avec WebStyle

# Personalisation du style

The screenshot shows a web browser window for the "Atlantis Institute of Fictive Science: Home" at <http://invenio-demo.cern.ch/>. The page features a header with the institute's name and a login link. Below the header is a search bar with buttons for "Search", "Submit", "Personalize", and "Help". A sidebar on the left lists categories like "Articles & Preprints", "Books & Reports", and "Multimedia & Arts". A "Focus on" section highlights "CERN Divisions" and "CERN Experiments". The right sidebar contains links for "ABOUT THIS SITE", "SEE ALSO", and language options.

# Formatage des records

The screenshot shows two windows side-by-side. The left window is a browser displaying a record for "LHCb: Monitoring the DIRAC Distribution System" by Nandakumar, R; Seco Miguelez, M; Santinelli, R, dated 2 Oct 2006. The right window is also a browser showing the XML representation of the same record. The XML code is as follows:

```
<articles>
  <article>
    <front>
      <journal-meta>
        <journal-title>Mod. Phys. Lett. A</journal-title>
        <abbrev-journal-title>Mod. Phys. Lett. A</abbrev-journal-title>
        <issn/>
      </journal-meta>
      <article-meta>
        <title-group>
          <article-title>
            Non-Abelian Flat Directions in a Minimal Superstring Standard Model
          </article-title>
        </title-group>
        <contrib-group>
          <contrib contrib-type="author">
            <name>
              <surname>Cleaver</surname>
              <given-names>G B</given-names>
            </name>
          </contrib>
          <contrib contrib-type="author">
            <name>
              <surname>Faraggi</surname>
              <given-names>A E</given-names>
            </name>
          </contrib>
          <contrib contrib-type="author">
```

- simili-HTML
- XSL

# Authentification

En plus de la gestion natives des comptes utilisateurs, supporte l'ajout de méthodes d'authentification externes (par ex. pour interagir avec les base de donnée institutionnelle des ressources humaines):

- Vérification user/password
- Importation des appartenances à des groupes ou mailing lists
- Info externes des utilisateurs (e.g. téléphone, affiliation...)

## Méthodes d'autentifications:

- «Interne»
- Shibboleth
- LDAP
- ... (créer votre plugin!)

# Contrôle d'accès

- RBAC (Role Based Access Control)  
<http://invenio-demo.cern.ch/help/admin/webaccess-admin-guide>
- FireRole (Firewall Like Role Definition)  
<http://invenio-demo.cern.ch/help/admin/webaccess-admin-guide#6>

```
allow email /.*cern.ch/,/.*@slac.stanford.edu/  
deny group badguys  
allow remote_ip "123.0.0.0/24"  
deny all
```

CERN PhotoLab CERN-EX-0702022

**The central part of CMS is lowered**  
**Descente dans la caverne de la partie centrale du détecteur de particules CMS (Compact Muon Solenoid).**

A large cylindrical particle detector, the CMS, is shown being lowered into its underground cavern. The detector is massive, with a central iron core and various red and blue components. Several workers are visible around the base of the detector. The cavern has multiple levels with green support structures and equipment.

## Le Bulletin

[News Articles](#) | [Official News](#) | [Training and Development](#) | [General Information](#) | [Staff Association](#)

 [La version PDF en couleur est maintenant disponible au téléchargement](#) >>

**« A bientôt les protons » - rétrospective sur l'exploitation des premiers protons du LHC.**

Il y a une semaine, le LHC passait de l'exploitation des protons à celle des ions lourds. Le Bulletin en profite pour revenir sur les progrès accomplis par les expériences lors de cette première année de collisions de protons au LHC. Dans une série d'entretiens, les porte-parole de chaque expérience font le point sur cette exploitation réussie. >>

**Une grande étape pour la sécurité**

**Le mot du DG**

Ces derniers jours ont été jalonnés de grands moments pour la physique du LHC, tandis que nous passions de l'exploitation avec protons à l'exploitation avec ions plomb. Chaque nouvelle étape a été largement commentée et je vous ai tenus informés par des courriels. Un événement moins visible et néanmoins vital pour le bon fonctionnement du Laboratoire est l'accord que nous signerons avec nos États hôtes le 15 novembre prochain. Cet accord tripartite, le deuxième que nous signons en deux mois, nous permettra de rationaliser la protection contre les rayonnements et la sûreté radiologique au CERN. >>

**Dernières nouvelles du LHC : passage aux ions lourds réussi**

L'écran LHC1 montre pour la première fois l'exploitation de la machine avec des ions. >>
